B34	Investment objective and policy, including investment restrictions	<p>Investment Policy</p> <p>The Company will continue to invest predominantly in a diversified portfolio of companies, with a particular emphasis on smaller unquoted companies, through investments which will usually have the following characteristics:</p> <ul style="list-style-type: none"> • Companies which meet the VCT criteria with proven sales and the ability to grow, which are seeking growth capital. • A strong, balanced and well-motivated management team. • Investments which, where appropriate, include loan notes and preference shares to enhance the security of the portfolio and to provide income. • Investments where Draper Esprit plc and Elderstreet Investments Limited can typically act as lead investor and have an active involvement in the business through a board position. <p>The Company has a general portfolio mix by sector and its average deal size is approximately £1.0 million, although it will syndicate larger deals of up to £2.0 million. Within qualifying investments, 30% of investments will usually be into early stage companies (typically revenues of between £0.5 and £1.5 million) with high growth potential and 70% into later stage investments (typically revenues exceeding £1.5 million) that meet the new VCT age limit restrictions. Because of the new VCT rules it is likely that a higher percentage of investments than in the past will be in companies which have not yet reached the stage of profitability</p> <p>The target investment size has historically been between £0.5 million and £1.0 million across a broad range of industries, although this may rise as further capital is raised and providing appropriate investments are sourced. The Company will aim to have material influence, including board representation, in relation to all of its portfolio companies.</p> <p>Risk Diversification</p> <p>The Company's portfolio will be diversified by investing in a portfolio of VCT qualifying investments covering a number of sectors. Funds not invested in VCT qualifying investments have generally been invested in fixed income securities and going forward will be generally held in cash. The maximum that the Company will hold in a single investment (by value at the time of investment) is 15% of funds invested.</p> <p>VCT Qualifying Investments</p> <p>It is the Directors' intention that qualifying investments made by the Company will be in companies supplying products and services to a range of markets. In particular, the Directors have specific experience and expertise in certain markets, such as information technology, manufacturing and retailing, and, where appropriate, the Company will invest in these sectors.</p> <p>It is intended that most of the Company's qualifying investments will be established businesses, (typically revenues exceeding £1.5 million), requiring development finance. Investments in early stage businesses should represent only a small proportion of the portfolio at any time; such investments could be made, for example, in a company whose management team the Company has previously backed or a start-up company which can demonstrate substantial and verifiable first year sales prospects.</p> <p>The Manager will seek to ensure that the businesses in which the Company invests will have: strong management teams; opportunities for growth; products or services able to sustain a competitive advantage; and reasonable prospects of achieving a stock market flotation or trade sale.</p>
-----	--	---

		<p>In relation to investments to be made by the Company:</p> <ol style="list-style-type: none"> 1. In order to enhance the security of the portfolio and to provide income, the Company's investments may include, where appropriate, loan notes and preference shares; 2. The Company's policy is, where appropriate, to have a representative of the Manager, or an experienced individual well known to it, appointed to the board of each portfolio company as a non-executive director in order to play an active role in seeking to develop the full potential of the company concerned; and 3. The Manager will endeavour to add value to the portfolio companies in a number of ways, including strategic planning, assisting with the development of the management team, advising on acquisitions or mergers and helping to structure the company for a stock market flotation or trade sale. <p>Investments in AIM traded companies</p> <p>Companies whose shares are traded on AIM will be considered for investment. Such investments will normally only be made where most of the same criteria for unquoted investments are met.</p> <p>Non-Qualifying Investments</p> <p>The approach historically adopted by the manager to non-Qualifying Investments was to invest in short-dated fixed interest securities of high credit quality (to provide protection for the capital invested) principally consisting of financial instruments and fixed income securities issued by the UK Government, major companies and institutions as well as holding such funds in cash and bonds within a balanced portfolio, with a focus on higher yields while maintaining liquidity and downside protection. The Company also had shareholder approval to invest in property, equities, commodities and hedge funds however this was de-minimis.</p> <p>Following recent changes to the VCT Rules, new funds raised will generally be held in cash or near cash assets pending investment. After the Company has satisfied the VCT investment qualification targets required by HMRC, the remaining cash will be invested in accordance with HMRC rules for Non-Qualifying Investments. Currently this includes cash, listed shares and securities, liquid AIFs, UCITS or other money market funds.</p> <p>Venture Capital Trust regulations</p> <p>The Company will be managed as to maintain its VCT status by satisfying a number of tests set out in Part 6 of the Income Tax Act 2007.</p>
B35	Borrowing limits	It is not the Company's intention to have any borrowings. The Company does, however, have the ability to borrow a sum equal to 10% of the aggregate amount paid up on the issued share capital of the Company and the amounts standing to the credit of the consolidated reserves of the Company.
B36	Regulatory status	The Company is subject to the Act and the regulations made thereunder and in the UK generally, its shares are listed on the premium segment of the Official List and, as a qualifying VCT, it is subject to regulation by HMRC in order to retain such status.
B37	Typical investor	A typical investor in the Company will be a UK higher-rate income tax payer, over 18 years of age and with an investment range of between £6,000 and £200,000 who is capable of understanding and is comfortable with the risks of VCT investment.
B38	Investments of 20% or more in a single company	Not applicable. The Company does not and will not hold any investments which represent more than 20% of its gross assets in a single company or group.
B39	Investments of 40% or more in a single company	Not applicable. The Company does not and will not hold any investments which represent more than 40% of its gross assets in a single company or group.

Downing LLP acts as the Company’s administration and receives a fee of £50,000 per annum.</p> <p>In addition, Elderstreet will be entitled to a promoter’s fee of either 3.0% or 5.5% (depending on the category of Investor) of amounts subscribed pursuant to the Offer.</p>

It is anticipated that dealings in the New Ordinary Shares will commence 10 Business Days following allotment.</p>										

C7	Dividend policy	The Board has a stated objective of paying annual dividends of between 4 pence and 5 pence per Ordinary Share. However, it should be noted that if the Offer is fully subscribed the dilution on existing shareholders could be such that this target level of dividends may reduce slightly to between 3 and 4 pence per annum (equivalent to a 6% to 8% tax free return based on the Estimated Offer Price after factoring in initial tax reliefs).
D		Risks
D2	Key information on the key risks specific to the Company	<p><i>The Company</i></p> <p>Most of the Company's investments will be in small companies which may have limited trading records and may not produce hoped for returns. Consequently, Investors could get back less than they invested.</p> <p>The past performance of the Company and/or investments managed by the Manager should not be regarded as an indication of the future performance of the Company.</p> <p>Although it is intended that the Company will be managed so as to retain its VCT status, there is no guarantee that such status will be maintained. If the Company fails to meet the qualifying requirements for a VCT, this could result in:</p> <ul style="list-style-type: none"> • the loss of income tax relief received if Investors have not held their New Ordinary Shares for the required qualifying period; • the loss of income tax relief on dividends paid (or subsequently payable) to Investors; • the loss of tax relief previously obtained in relation to corporation tax on capital gains made by the Company; • a liability to tax on capital gains on any disposal of New Ordinary Shares; and • the loss of the Company's listing on the Official List and the ability of the New Ordinary Shares to be traded on the London Stock Exchange. <p>Most of the Company's investments may be in companies whose securities are not publicly traded or freely marketable and may, therefore, be difficult to realise.</p> <p>Some of the Company's legacy investments are in established companies that may be relatively mature with limited opportunities for further growth.</p> <p>In order to comply with VCT legislation, the Qualifying Investments in which the Company invests must have gross assets of not more than £15 million immediately prior to investment and £16 million immediately post investment (these tests are applied on a group basis if applicable) and be less than seven years old from their first commercial sale, or ten years for knowledge intensive companies. Such companies generally have a higher risk profile than larger companies.</p> <p>There are further restrictions on the use of VCT funds received by investee companies. These changes may mean that there are fewer opportunities for investment, and that the Companies may not necessarily be able to provide further investment funds for companies already in its portfolio. The penalty for contravention of these rules can include loss of VCT status with a resultant clawback of VCT tax reliefs from investors.</p> <p>There is no guarantee that the Company's objectives will be met or that suitable investment opportunities will be available. This would affect and/or reduce the level of returns which would otherwise have been achievable.</p> <p>The Company's ability to obtain maximum value from its investments (for example, through sale) may be limited by the requirements imposed in order to maintain the VCT tax status of the Company (such as the obligation to have at least 70% by value of its investments in Qualifying Investments).</p>

		<p>Changes in legislation concerning VCTs in general, Qualifying Investments and qualifying trades in particular, may restrict or adversely affect the ability of the Company to meet its objectives and/or reduce the level of returns which would otherwise have been achievable.</p> <p>Any targets or estimates referred to in this document are not projections or forecasts, and no projections or forecasts should be inferred or implied from such targets or estimates. Any targets or estimates referred to may not be realised.</p>
D3	Key information on the key risks specific to the securities	<p><i>The Securities</i></p> <ul style="list-style-type: none"> • The value of the New Ordinary Shares depends on the performance of the underlying assets and the value of the New Ordinary Shares, and the income from them, can fluctuate. In addition, there is no guarantee that the market price of the New Ordinary Shares will fully reflect their underlying Net Asset Value or the ability to buy and sell at that price. • Although the New Ordinary Shares will be listed on the premium segment of the Official List and traded on the London Stock Exchange's main market for listed securities, it is unlikely that a liquid market in the New Ordinary Shares will develop and there may never be two competitive market makers. It may, therefore, prove difficult for Investors to sell their New Ordinary Shares. • There is a limited secondary market for VCT shares and most trade at a discount to their net asset value.
E		Offer
E1	Offer net proceeds	The Company is proposing to raise up to £10 million under the Offer. If the Offer is over-subscribed, the Offer may be increased at the discretion of the Board to no more than £20 million. The total initial expenses of the Offer (assuming full subscription (but no increase) by Execution-Only Investors, Professional Client Investors and/or direct investors only) will be 5.5% of the gross proceeds and the total net proceeds are therefore estimated to be £9.45 million.
E2a	Reasons for the Offer and use of proceeds	<p>Elderstreet recently reached a co-investment agreement with Draper Esprit to share deal flow, management experience and investment opportunities going forward. Draper Esprit is one of the leading venture capital investors involved in the creation, funding and development of high-growth technology businesses with an emphasis on digital technologies in the UK, the Republic of Ireland and Europe. The Board believe this agreement will bring substantial benefits to both existing and prospective new investors. There will be no change to the generalist investment policy of the Company. However, the ability to join a funding syndicate of Draper Esprit funds will bring access to larger deals in companies that have higher revenue in high growth sectors.</p> <p>The additional funds raised under the Offer will be invested in accordance with the Company's investment policy.</p>
E3	Terms and conditions of the Offer	<p>New Ordinary Shares issued under the Offer will be at an offer price determined by the following pricing formula:</p> $\text{PRICE PER NEW ORDINARY SHARE (IN PENCE)} = \text{NET ASSET VALUE} / X$ $X = 1 - \text{NET TOTAL FEES (\%)}$ <p>Net Total Fees are the Promoter's Fee and Commission/Adviser Charge, each expressed as a percentage of the amount subscribed, adjusted for any applicable Early Investment Incentive.</p> <p>The proceeds of the Offer will be invested in accordance with the Company's investment policy.</p>
E4	Description of any interest that is material to the issue	Not applicable. There are no interests that are material to the issue.

E5	Name of persons selling securities	Not applicable. No entity is selling securities in the Company.
E6	Amount and percentage of immediate dilution	The New Ordinary Shares will not dilute the NAV of the existing Shares as they will be issued at a price equal to NAV plus costs.
E7	Expenses charged to the investor	<p>For applications received from Execution-Only Investors, Professional Client Investors and/or direct investors only, the costs of the Offer will be 5.5% of the Net Asset Value of each New Ordinary Share issued pursuant to that Investor's application (save for permissible trail commission which the Company will be responsible for).</p> <p>For applications received from Retail Client Investors, the Investor will pay a Promoter's Fee of 3.0% and may facilitate any agreed Adviser Charge which the Investor has negotiated with their financial intermediary via a reduction in the number of New Ordinary Shares the investor will receive, calculated in accordance with the Pricing Formula.</p>

Prospective Investors should consider carefully the following risk factors, as well as the other information in this Prospectus, before investing. Prospective Investors should read the whole of this Prospectus and not rely solely on the information in the section entitled "Risk Factors". The business and financial conditions of the Company could be adversely affected if any of the following risks were to occur and Investors could lose part or all of their investment.

The Company's business, financial condition or results could be materially and adversely affected by any of the risks described below. In such cases, the market price of the New Ordinary Shares may decline, or returns derived from those shares may be reduced, due to any of these risks and Investors may lose all or part of their investment. Additional risks and uncertainties not presently known to the Directors, or that the Directors currently deem immaterial, may also have an adverse effect on the Company. The Directors consider the following to be all the material risks for potential Investors in the Company, but the risks listed do not necessarily comprise all those associated with an investment in the Company:

1. Risks relating to the Company

- Although it is intended that the Company will be managed so as to retain its VCT status, there is no guarantee that such status will be maintained. Further details of the taxation implications to an Investor of an investment in the Company are set out in Part 6 of this document. However, if the Company fails to meet the qualifying requirements for a VCT, this could result in:
 - (a) the loss of income tax relief received if Investors have not held their New Ordinary Shares for the five-year holding period;
 - (b) the loss of income tax relief on dividends paid (or subsequently payable) to Investors;
 - (c) the loss of tax relief previously obtained in relation to corporation tax on capital gains made by the Company; and
 - (d) a liability to tax on capital gains on any disposal of New Ordinary Shares.

- Most of the Company's investments may be in companies whose securities are not publicly traded or freely marketable and may, therefore, be difficult to realise and there can be no assurance that sale proceeds will match fair values used for accounting purposes.
- Some of the Company's legacy investments are in established companies that may be relatively mature with limited opportunities for further growth.
- In order to comply with VCT legislation, the Qualifying Investments in which the Company invests must have gross assets of not more than £15 million immediately prior to investment and £16 million immediately post investment (these tests are applied on a group basis if applicable). Such companies generally have a higher risk profile than larger companies.
- From 18 November 2015, VCTs have been prohibited from investing in companies which are more than seven years old (10 years for "knowledge intensive" companies) unless certain limited exemptions apply. VCT investee companies are also restricted to a maximum lifetime fundraise of £12 million (or £20 million for "knowledge intensive" companies) from Stated aided risk finance sources. There are further restrictions on the use of VCT funds received by investee companies. These changes may mean that there are fewer opportunities for investment, and that the Company may not necessarily be able to provide further investment funds for companies already in its portfolio. The penalty for contravention of these rules can include loss of VCT status with a resultant clawback of VCT tax reliefs from investors.
- At the time of issue of this Prospectus an Investee Company is seeking refinance which the Company itself is prohibited from providing under current VCT rules. The investee company has secured bridging facilities pending that refinance. Although not possible to assess at present, the terms of that refinance (or failure to secure it) may have an adverse effect on the value of the VCT's investment in that company. If any such adjustment is material in the overall context of the portfolio, the Directors will ensure that no Shares are allotted pursuant to the Offer until an appropriately adjusted Net Asset Value has been issued.

- Where the European Commission believe that State Aid has been provided which is not in accordance with the Risk Finance Guidelines, they may require that the UK Government recover that State Aid. There is currently no mechanism in place for this, but recovery may be from the investee companies, the VCT or the VCT's investors.
- There is no guarantee that the Company's objectives will be met or that suitable investment opportunities will be available. This would affect and/or reduce the level of returns which would otherwise have been achievable.
- The Company's ability to obtain maximum value from its investments (for example, through sale) may be limited by the requirements imposed in order to maintain the VCT tax status of the Company (such as the obligation to have at least 70% by value of its investments in Qualifying Investments).
- Changes in legislation concerning VCTs in general, Qualifying Investments and qualifying trades in particular, may restrict or adversely affect the ability of the Company to meet its objectives and/or reduce the level of returns which would otherwise have been achievable.
- Most of the Company's investments will be in small companies which may have limited trading records and may not produce the hoped for returns. Consequently, Investors could get back less than they invested.
- The past performance of the Company and/or investments managed by the Manager is not necessarily a guide to the future performance of the Company.
- No assurance can be given that profits will be achieved or that substantial losses will not be incurred and Shareholders may get back less than the amount originally invested, even taking into account the available tax reliefs.
- Any targets or estimates referred to in this document are not projections or forecasts, and no projections or forecasts should be inferred or implied from such targets or estimates. Any targets or estimates referred to may not be realised.

2. Risks relating to Taxation

- Investors should be aware that the disposal of New Ordinary Shares within five years of their subscription will lead to the requirement to repay the 30% income tax relief available upon investment to the extent of the amount received from such sale. Accordingly, investment in the Company is a long term investment.
- The levels and bases of reliefs from taxation may change and could apply retrospectively. The tax reliefs referred to in this document are those currently available and their value depends on the respective individual circumstances of Investors.
- An investment in a VCT is free from tax on capital gains for a Qualifying Investor on a disposal of their New Ordinary Shares. Consequently, any realised losses on disposal of New Ordinary Shares cannot be used to create an allowable loss for capital gains tax purposes.
- An Investor's initial income tax relief will be withdrawn if the Investor, or any person associated with the Investor, takes out a loan which would not have been made, or would not have been made on the same terms, save for the acquisition of the New Ordinary Shares.
- The Finance Act 2014 contained provisions (i) restricting tax relief on subscriptions for shares in a VCT where, within six months of subscription, the investor disposes of shares in the same VCT (or in another VCT which at any time merges with that VCT) and (ii) preventing VCTs returning capital to investors within three years of the end of the accounting period in which the relevant shares were issued. The Board has taken these legislative changes into account in determining its dividend policy but there remains the risk that these or other factors could result in less than the target level of annual dividends being paid or potentially no dividends being paid at all. If the Company were to pay dividends in breach of these new regulations, there is a risk that it might lose its status as a VCT which would result in adverse tax consequences for Investors noted at 1 (a) – (d) above.

3. Risks relating to the New Ordinary Shares

- Prospective Investors should be aware that the value of the New Ordinary Shares depends on the performance of the underlying assets and the value of the New Ordinary Shares, and the income from them, can fluctuate. In addition, there is no guarantee that the market price of the New Ordinary Shares will fully reflect their underlying Net Asset Value or the ability to buy and sell at that price.

- Although the New Ordinary Shares will be listed on the premium segment of the Official List and traded on the London Stock Exchange's main market for listed securities, it is unlikely that a liquid market in the New Ordinary Shares will develop and there may never be two competitive market makers. It may, therefore, prove difficult for Investors to sell their New Ordinary Shares.
- There is a limited secondary market for VCT shares and most trade below their net asset value.

4. Forward looking statements

You should not place undue reliance on forward-looking statements. This Prospectus includes statements that are (or may be deemed to be) "forward-looking statements", which can be identified by the use of forward-looking terminology including the terms "believes", "continues", "expects", "intends", "may", "will", "would", "should" or, in each case, their negative or other variations or comparable terminology. These forward-looking statements include all matters that are not historical facts. Forward-looking statements involve risk and uncertainty because they relate to future events and circumstances. Forward-looking statements contained in this Prospectus or based on past trends or activities, should not be taken as a representation that such trends or activities will continue in the future. Any such statements do not, nor are intended to qualify the Company's working capital statement.

The information contained in this document will be updated if required by the Prospectus Rules, the Listing Rules and the Disclosure and Transparency Rules, as appropriate.

CHAIRMAN'S LETTER

Elderstreet VCT plc

12 December 2016

Dear Shareholders/Investors

New £10 million public offer for Ordinary Shares

I am delighted to offer you the chance to invest in the award winning Elderstreet VCT.

The Board and the Manager recognise that the investment landscape is constantly changing and that the ability to invest larger sums of capital into portfolio companies can enhance the level of deal flow. To this end I am pleased to inform you that the Company's manager, Elderstreet, has reached a significant co-investment agreement with Draper Esprit to share deal flow, management experience, and investment opportunities going forward.

Co-investment agreement with Draper Esprit plc

Draper Esprit is one of the leading venture capital investors involved in the creation, funding and development of high-growth technology businesses with an emphasis on digital technologies in the UK, the Republic of Ireland and Europe. Draper Esprit floated on the AIM market in June 2016 and at the time of writing has a market capitalisation of £144 million.

The Draper Esprit team have considerable experience and have operated together for nine years. Prior to that, its members worked for leading firms within the venture capital industry. Since formation, the team has been involved in investing over £800 million into more than 200 technology businesses and been involved in creating businesses with a total aggregate value of over £6.4 billion, with an exited value of over £5 billion. Draper Esprit funds include EIS and institutional funds. The Draper Esprit EIS Funds 2015 achieved the highest rating by Martin Churchill's Tax Efficient Review (88/100). Pursuant to this collaboration, Draper Esprit will be taking a 30% stake in the Manager with an option to acquire 100% in the future.

The Board believe this agreement will bring substantial benefits to both existing and prospective new investors. Whilst there will be no change to the generalist investment policy of the Company, the ability to join a funding syndicate of Draper Esprit funds will bring access to larger deals in companies that enjoy higher revenues and which operate in high growth sectors. These more developed companies can scale very quickly and have the potential to IPO, exit, or attract further funding rounds more quickly than lower revenue companies. Given the recent changes to VCT investment rules, access to businesses of this profile may enhance the Company's ability to secure better investment terms and result in earlier exits. In addition to institutional funds, Draper Esprit has £29.5 million of EIS funds under management and this experience of tax efficient investing complements Elderstreet's skillset as an award winning VCT manager.

Draper Esprit is also a part of the Draper Venture Network details of which can be found on page 34. This global network is a valuable resource for deal flow, market intelligence, and further funding.

Details of the Draper Esprit team can be found under the management section on page 33. Details of the co-investment agreement with Draper Esprit funds can be found on page 25.

Elderstreet VCT Plc – An Award Winning Generalist VCT

The Company continues to win awards and last year was runner up in the Growth Investor Awards Exit of the Year 2015. The Manager has previously won the 2014 VCT Investment Company of the Year Awards, and VCT Fund Manager of the Year in 2009 and 2010 organised by the Growth Company Awards.

This latest award followed a successful exit from the portfolio of Wessex Advanced Switching Products, a manufacturer of military and aerospace switches and lighting products, an investment which has returned an IRR of over 30%. Since then the Company has also exited SMART Education Limited in a deal that will deliver an IRR of 19.5%.

New investors would be buying into a portfolio that was assembled prior to the coming into effect of the Finance (No. 2) Act 2015 which now prohibits investment into more established companies that do not meet the VCT age criteria. The Company's largest investments (see pages 30 to 32) include several long standing and profitable companies.

The Board is confident that the Company continues to hold a good quality portfolio that has the potential to deliver further value for Shareholders over the coming years.

A VCT for income

The Board has a stated objective of paying annual dividends of between 4 pence and 5 pence per Ordinary Share. However, it should be noted that if the Offer is fully subscribed the dilution on existing shareholders could be such that this target level of dividends may reduce slightly when spread across the enlarged shareholder base. The Board believes that in a generally low global interest rate environment a tax free yield of between 3 and 4 pence (equivalent to a 6% to 8% tax free return based on the Estimated Offer Price after factoring in initial tax reliefs) represents a good yield and will help to deliver consistent returns in the future. Coupled with Draper Esprit co-investment, and therefore the possibility of investing in higher revenue businesses which may lead to earlier realisations, the Board believe the upside outweighs any short term potential reduction from historic yields.

Further details on the potential yields can be found on page 21.

Distributable reserves as at 30 June 2016 (ignoring the interim dividend payable in December 2016) were £12.4 million. This is equivalent to 33 pence per existing Ordinary Share, and 24 pence per share if the Offer is fully subscribed.

Investors should note that the level of dividend is not guaranteed, and no profit forecast is to be inferred or implied from these statements.

The further issue of New Ordinary Shares

Funds raised by the issue of New Ordinary Shares pursuant to the Offer will be invested, in accordance with the Company's investment policy, in a diversified portfolio of companies, with a particular emphasis on companies which meet the VCT criteria, with proven sales and the ability to grow, which are seeking development capital. Further details on the investment policy can be found on pages 23 to 25. Funds awaiting investment in such companies will principally be held in cash deposits and in a range of liquidity investments, including listed equity shares and shares or units in alternative investment funds or UCITS.

Early Investment Incentives

Two Early Investment Incentives are being offered for Applications for New Ordinary Shares which are received and accepted in good time. The Manager will rebate to early investors the majority of the Promoter's Fee, in respect of which the Investor will receive additional New Ordinary Shares, and will also rebate the cost of initial commission payable to authorised intermediaries where this saving is passed on by the intermediary to the Investor, subject to a cumulative maximum rebate of 4.5%. Applications received before the first deadline of 31 January 2017 will benefit from a 2.0% rebate of the promoter's fee. Those received before the second deadline of 28 February 2017 will benefit from a 1.5% rebated of the Promoter's Fee.

Key tax benefits

- 30% income tax relief is available on the amount subscribed up to £200,000, provided the New Ordinary Shares are held for at least five years. Further information on the initial tax benefits can be found on page 41.
- Tax free distributions and capital gains.

Next steps

In order to invest please read this document and then complete the Application Form which is set out at the end of this document. If Investors have any questions regarding this investment they should contact their own financial intermediaries. For questions relating to an application, please telephone Elderstreet on 020 7831 5088. Prospective Investors should note that no investment advice can be given by Elderstreet and their attention is drawn to the risk factors set out on pages 14 to 16 of this document.

Yours sincerely

PART 1

INFORMATION ABOUT ELDERSTREET VCT

Introduction

Elderstreet VCT is an established generalist VCT managed by Elderstreet Investments Limited. The objective of the Company is to provide good long term tax free returns to Shareholders through a combination of dividends and capital growth. Elderstreet VCT has a track record of providing good returns for its Shareholders. Income from investments and proceeds of profitable realisations have enabled the Board to pay cash dividends amounting to 93.5p per Ordinary Share to original investors who subscribed at the Company's launch in 1998. The Company has raised approximately £32 million (after expenses) since 1998 and is now invested in 24 companies with an unaudited net asset value of £25.6 million (source: unaudited interim accounts as at 30 June 2016).

The Offer enables Investors and existing Shareholders to invest into an established and diversified portfolio, managed by an award winning experienced investment team with a proven track record.

Background

The Company was launched in 1998, raising £15.1 million (after expenses). A further fundraise took place in 2006 and from then to date the Company raised approximately £15.3 million (after expenses) through further issues of Ordinary Shares and the reinvestment of dividends, paid out £23.1 million in dividends and has a residual unaudited Net Asset Value of £25.6 million (as at 30 June 2016).

The Company invests in the smaller company market, mainly in unquoted investments, but can also invest in AIM. Managed by an award winning experienced team, the Company has particular expertise in growing businesses through a 'hands-on' investment style, preferring to take significant stakes and board positions in the portfolio companies; an approach that the Manager believes has contributed significantly to the Company's success to date. The Company has access to a strong and consistent flow of investment opportunities and since its formation has reviewed over 10,000 potential investments.

The Board and Investment Management Team and their families have invested a total of in excess of £830,000 in the Company to date. In 2016 the Investment Management Team was strengthened by the entry into a co-investment agreement with Draper Esprit to share deal flow, management experience and investment opportunities.

Draper Esprit

Draper Esprit is one of the leading venture capital investors involved in the creation, funding and development of high-growth technology businesses with an emphasis on digital technologies in the UK, the Republic of Ireland and Europe. Draper Esprit floated on the AIM market in June 2016 and at the time of writing has a market capitalisation of £144 million.

The Draper Esprit team have considerable experience and have operated together for nine years. Prior to that, its members worked for leading firms within the venture capital industry. In aggregate, the team has been involved in investing over £800 million into more than 200 technology businesses and been involved in creating businesses with a total aggregate value of over £6.4 billion, with an exited value of over £5 billion. Draper Esprit funds include EIS and institutional funds. The Draper Esprit EIS Funds 2015 achieved the highest rating by Martin Churchill's Tax Efficient Review (88/100). As part of the deal Draper Esprit will be taking a 30% stake in the existing Manager with an option to acquire 100% in the future.

The ability to join a funding syndicate with Draper Esprit funds will bring the Company access to larger deals in higher revenue companies in high growth sectors. Given the recent changes to VCT investment rules, access to businesses of this profile may enhance the Company's ability to secure better investment terms and could result in earlier exits. In addition to institutional funds, Draper Esprit has £29.5 million of EIS funds under management and this experience of tax efficient investing complements Elderstreet's skillset as an award winning VCT manager.

Draper Esprit is also a part of the Draper venture network details of which can be found on page 34. This global network is a valuable resource for deal flow, market intelligence, and further funding.

Elderstreet Track Record on Ordinary Shares

Since its launch in 1998, the Company has paid cash dividends amounting to 93.5p per Ordinary Share. With an unaudited Net Asset Value of 68.9p per Ordinary Share at 30 June 2016, the Company has produced a total return since launch (cumulative dividends paid up to 30 June 2016 plus NAV) of 162.4p per Ordinary Share, a 103% tax-free uplift on the net investment (of 80p per share) of Shareholders who invested at inception.

The returns for a Shareholder with Ordinary Shares that invested in the Company at launch are shown below:

Total returns on Ordinary Shares to 30 June 2016 for Shareholders who invested at launch

Initial net investment per Ordinary Share ¹	Cumulative cash dividends per Ordinary Share	NAV per Ordinary Share (unaudited)	Total return per Ordinary Share (unaudited)	Tax-free uplift on net investment ²
80p	93.5p	68.9p	162.4p	103%

¹ Assumes an investment of 100p per Ordinary Share by a Qualifying Investor, less income tax relief at 20%, resulting in a net investment of 80p per Ordinary Share.

² The percentage tax-free uplift is the excess of the total return over the initial investment net of tax relief received by Qualifying Investors divided by the initial investment net of income tax relief receivable by Qualifying Investors. The tax-free uplift has been set out for illustrative purposes only, is not guaranteed, is not necessarily a guide to future performance and no forecast or projection should be inferred or implied.

Since 2005 the Company has raised further capital predominantly in the same share class, with the exception of a 2005 offer of C ordinary shares which were subsequently converted into Ordinary Shares. The performance of each of these fund raisings is shown below, including initial tax reliefs.

Tax year of Investment ending 5th April	Rate of Initial Tax relief	Initial investment per Ordinary Share after tax relief	Cumulative cash dividend per Ordinary Share	NAV per Ordinary Share (June 16 unaudited)	Total return per Ordinary Share (unaudited)	Tax-free % increase on net investment
1998	20%	80.0	93.5	68.9	162.4	103%
2005 *	40%	60.0	65.4	46.1	111.5	86%
2006	40%	41.3	64.0	68.9	132.9	222%
2008	30%	64.4	57.0	68.9	125.9	95%
2009	30%	52.3	50.5	68.9	119.4	128%
2010	30%	53.2	47.5	68.9	116.4	119%
2011	30%	56.0	43.5	68.9	112.4	101%
2012	30%	49.5	39.5	68.9	108.4	119%
2013	30%	47.3	35.5	68.9	104.4	121%
2015	30%	50.3	10.0	68.9	78.9	57%
2016	30%	49.7	2.5	68.9	71.4	44%

¹ The percentage tax-free increase is the excess of the total return per Ordinary Share over the initial investment net of tax relief received by Qualifying Investors divided by the initial investment net of income tax relief receivable by Qualifying Investors. The tax-free increase figures have been set out for illustrative purposes only, are not guaranteed, are not a guide to future performance and no forecast or projection should be inferred or implied. It should be noted that investments in the Company in the year to 5 April 2012 and after have yet to satisfy the tax free holding period.

² The 2005 numbers and NAV have been adjusted to reflect the merger of the C ordinary share class with the Ordinary Share class at a rate of 0.6691 Ordinary Shares for each C ordinary share.

The initial investment per Ordinary Share for the years 2006 to 2016 reflects the actual offer price at the time of subscription adjusted by the rate of initial tax relief applicable at the time.

Dividends on Ordinary Shares

It is the Board's objective to maximise dividends to Shareholders, subject to liquidity, the availability of sufficient distributable profits, capital resources and VCT regulations, and to target a dividend return of between 4 and 5 pence per annum. However, it should be noted that if the Offer is fully subscribed the dilution on existing shareholders could be such that this target level of dividends is likely to reduce slightly when spread across the enlarged shareholder base. The Board believes that in a generally low global interest rate environment a tax free yield of between 3 and 4 pence (equivalent to a 6% to 8% tax free return based on the Estimated Offer Price after factoring in initial tax reliefs) represents a good yield and will help to deliver consistent returns in the future. Coupled with Draper Esprit's co-investment, and the possibility of investing in higher revenue businesses which may lead to earlier realisations, the Board believe the upside outweighs any potential short term reduction in historic yields. Further details on the potential yields can be found on page 21.

As at 30 June 2016 the Company had distributable reserves of £12.385 million which is the equivalent to 11 years of dividends at 3 pence per Ordinary Share using the number of Ordinary Shares in issue at 30 June 2016 (or 8 years if the Offer is fully subscribed).

From 2006 to 2015 (inclusive) the Company has paid an average dividend per annum of 4.15p per Ordinary Share, excluding special dividends. Since 31 December 2014 following successful portfolio company exits, special dividends of 20 pence have been paid per Ordinary Share.

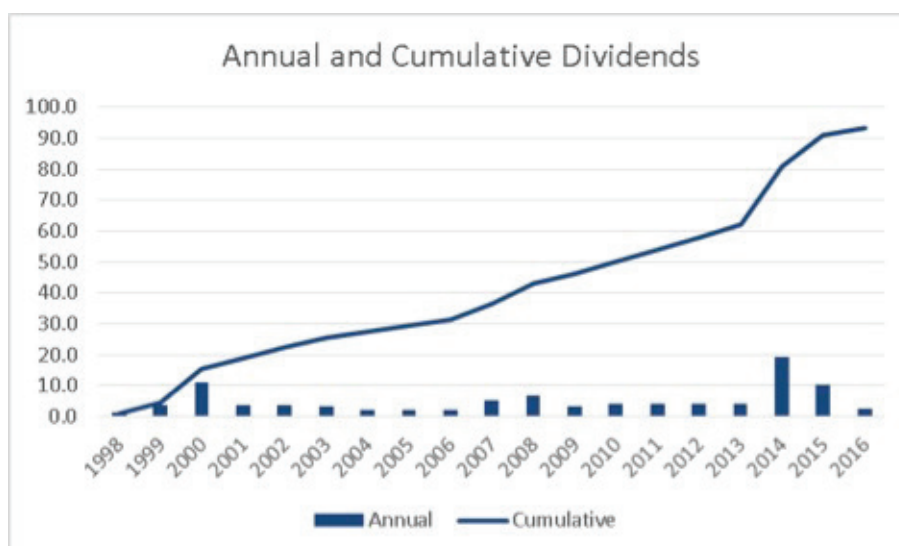

Investors should note that the level of dividend is not guaranteed, and no profit forecast is to be inferred or implied from these statements.

Regular interim and final dividends are payable usually in June and December every year. An interim dividend of 2.5p per Ordinary Share has been declared and is payable on the 16 December 2016 to Shareholders on the register on 4 November 2016. In addition, special one off dividends, normally as a result of portfolio company exits, have been declared in the past by the Board on an ad-hoc basis.

The following table shows the dividends paid per Ordinary Share each year since inception and reflects the actual payment date:

1998	1999	2000	2001	2002	2003	2004
1.0	3.5	11.0	3.5	3.5	3.0	2.0
2005	2006	2007	2008	2009	2010	2011
2.0	2.0	5.0	6.5	3.0	4.0	4.0
2012	2013	2014	2015	2016	Total Paid	Declared*
4.0	4.0	19.0	10.0	2.5	93.5	96.0

* includes a 2.5 p interim dividend payable 16 December 2016

Income Yield on Ordinary Shares

The following table gives an illustration of potential returns to Ordinary Shareholders, assuming a dividend of either 3 pence, 4 pence or 5 pence per annum is paid, and the equivalent taxable yield based on the Estimated Offer Price net of 30% income tax relief grossed up for a taxpayer paying 40% or 45% tax on his income.

Illustration of income yield per Ordinary Share after 30% tax relief

Offer Price (net of tax relief)*	Target annual dividend	Tax free yield per annum	Grossed up yield per annum	
			40% taxpayer	45% taxpayer
49.2	3.0p	6.1%	10.2%	11.1%
49.2	4.0p	8.1%	13.6%	14.8%
49.2	5.0p	10.2	16.9	18.5

* Using the Estimated Offer Price of 70.3p multiplied by 70% to reflect the initial 30% up front income tax relief. The June NAV of 68.9p has been adjusted down by the 2.5p interim dividend payable in December 2016 and for the issue costs of 5.5%. No forecast or projection should be implied or inferred.

Exits

The Company sold SMART Education Limited ('SMART') in December 2015, realising a profit of £3.6 million. SMART is a fast growing teacher supply agency which was first invested in October 2005. This investment backed an existing successful management team that were previously known to the Manager. A further contractual escrow of £1.5 million is due to be paid in December 2016. Taking this into account the investment will return an IRR of 19.5%.

In June 2014 the Company sold Wessex Advanced Switching Products ('WASP'), realising an initial profit of £8.8 million, and further escrow amounts of £0.9 million. WASP is a manufacturer of military and aerospace switches and lighting products. The investment was made in 1999 and has returned an IRR of over 30%. As a result of this very profitable exit the Board declared a special dividend of 15p per Ordinary Share (amounting in total to £4.5 million) paid in September 2014, representing a significant 15% of the Net Asset Value of the VCT at the time.

The prior two exits before WASP were the trade sales of Wecomm Limited in March 2011 to OpenText Corporation and Melorio plc in June 2010 to Pearson plc. The Melorio realisation achieved a multiple return of 2.2 times cost. The Wecomm realisation achieved a 1.1 times multiple of cost.

A table of meaningful successful exits since inception is produced below. The multiple is a multiple of cost realised. Ignoring the exceptional return from WASP, the average realised return from these exits has been a multiple of 2.5 times cost.

Investment Policy

The Company will continue to invest predominantly in a diversified portfolio of companies, with a particular emphasis on smaller unquoted companies, through investments which will usually have the following characteristics:

- Companies which meet the VCT criteria with proven sales and the ability to grow, which are seeking growth capital
- A strong, balanced and well-motivated management team.
- Investments which, where appropriate, include loan notes and preference shares to enhance the security of the portfolio and to provide income.
- Investments where Draper Esprit plc and Elderstreet Investments Limited can typically act as lead investor and have an active involvement in the business through a board position.

The Company has a general portfolio mix by sector and its average deal size is approximately £1.0 million, although it will syndicate larger deals of up to £2.0 million. Within qualifying investments, 30% of investments will usually be into early stage companies (typically revenues of between £0.5 and £1.5 million) with high growth

potential and 70% into later stage investments (typically revenues exceeding £1.5 million) that meet the new VCT age limit restrictions. Because of the new VCT rules it is likely that a higher percentage of investments than in the past will be in companies which have not yet reached the stage of profitability.

The target investment size has historically been between £0.5 million and £1.5 million across a broad range of industries. The Company will aim to have material influence, including board representation, in relation to all of its portfolio companies.

Risk Diversification

The Company's portfolio will be diversified by investing in a portfolio of VCT qualifying investments covering a number of sectors. Funds not invested in VCT qualifying investments have generally been invested in fixed income securities and going forward will generally be held in cash. The maximum that the Company will hold in a single investment (by value at the time of investment) is 15% of funds invested.

VCT Qualifying Investments

It is the Directors' intention that qualifying investments made by the Company will be in companies supplying products and services to a range of markets. In particular, the Directors have specific experience and expertise in certain markets, such as information technology, manufacturing and retailing, and, where appropriate, the Company will invest in these sectors.

It is intended that most of the Company's qualifying investments will be established businesses, (typically revenues exceeding £1.5 million), requiring development finance. Investments in early stage businesses should represent only a small proportion of the portfolio at any time; such investments could be made, for example, in a company whose management team the Company has previously backed or a start-up company which can demonstrate substantial and verifiable first year sales prospects.

The Manager will seek to ensure that the businesses in which the Company invests will have: strong management teams; opportunities for growth; products or services able to sustain a competitive advantage; and reasonable prospects of achieving a stock market flotation or trade sale.

In relation to investments to be made by the Company:

1. In order to enhance the security of the portfolio and to provide income, the Company's investments may include, where appropriate, loan notes and preference shares;
2. The Company's policy is, where appropriate, to have a representative of the Manager, or an experienced individual well known to it, appointed to the board of each portfolio company as a non-executive director in order to play an active role in seeking to develop the full potential of the company concerned; and
3. The Manager will endeavour to add value to the portfolio companies in a number of ways, including strategic planning, assisting with the development of the management team, advising on acquisitions or mergers and helping to structure the company for a stock market flotation or trade sale.

Investments in AIM traded companies

Companies whose shares are traded on AIM will be considered for investment. Such investments will normally only be made where most of the same criteria for unquoted investments are met.

Non-Qualifying Investments

The approach historically adopted by the manager to non-Qualifying Investments was to invest in short-dated fixed interest securities of high credit quality (to provide protection for the capital invested) principally consisting of financial instruments and fixed income securities issued by the UK Government, major companies and institutions as well as holding such funds in cash and bonds within a balanced portfolio, with a focus on higher yields while maintaining liquidity and downside protection. The Company also had shareholder approval to invest in property, equities, commodities and hedge funds however this was de-minimis.

Following recent changes to the VCT Rules, new funds raised will generally be held in cash or near cash assets pending investment. After the Company has satisfied the VCT investment qualification targets required by HMRC, the remaining cash will be invested in accordance with HMRC rules for Non-Qualifying Investments. Currently this includes cash, listed share and securities, liquid AIFs, UCITS or other money market funds.

Venture Capital Trust regulations

The Company will be managed as to maintain its VCT status by satisfying a number of tests set out in Part 6 of the Income Tax Act 2007.

Borrowings

It is not the Company's intention to have any borrowings; however the Company does have the ability to borrow not more than 10.0% of the aggregate of the nominal capital of the Company (being issued and paid up) plus the amounts standing to the credit of the reserves of the Company.

Draper Esprit co-investment Policy

Through its ownership of Encore Ventures (an FCA authorised and regulated management vehicle), Esprit Capital LLP manages five EIS funds, currently with a total of £29.5 million under management (approximately 70% of which is invested).

Draper Esprit plc is the parent company of the group which incorporates the management company Esprit Capital LLP and which has, excluding EIS funds, approximately £300 million under management (approximately 80% of which is invested).

Esprit Capital LLP will typically make an initial co-investment of between £3 and £5 million in each of the Draper Esprit's primary investments.

Encore Ventures will typically make an initial co-investment of between £100,000 and £1 million in each of the Draper Esprit's primary investments. Encore Ventures typically fixes the percentage of each deal shared with the Group on an annual basis, with periodic reviews as required. It is expected that the EIS funds will continue to co-invest in Draper Esprit's primary investments.

Elderstreet VCT plc currently has net assets of £25,581,000 million (approximately 77% of which is invested in portfolio companies).

Elderstreet has agreed a co-investment right alongside the Draper Esprit plc institutional and EIS funds. This will be broadly based on the liquid funds available, the EIS/VCT qualifying status of each investment, the existing asset allocation within each pool of funds (i.e. conflict issues around investing in a potential competitor to an existing portfolio company), and for the VCT, the current percentage of VCT qualification in each of its pool of VCT funds. This co-investment right and allocation will be reviewed on a periodic basis.

An example of a typical allocation between all of the funds based on an example of Liquid Funds available to invest at any time, may be as follows:

	Liquid Funds	Qualifying	Non Qualifying
Draper Esprit plc	30,000,000	67%	100%
Elderstreet VCT plc	5,000,000	11%	0%
Draper Esprit EIS	10,000,000	22%	0%

The Directors believe that this will provide Elderstreet VCT Shareholders with a number of advantages, particularly in relation to deal flow and the opportunity for Elderstreet VCT to co-invest in larger deals, and, therefore, later stage companies.

In the event of a conflict of interest between the funds (which shall include where an investment is proposed in a company in which another fund already has an interest), or where co-investments are proposed to be made other than on the above basis, such an investment by the VCT will require the approval of those members of the Elderstreet VCT board who are independent of the Manager.

The parties acknowledge that the Board is independent of the Manager and Draper Esprit and while the Manager or Draper Esprit may recommend deals on the above basis the Company has the right to decline to invest in any such deal.

Share buyback and dividend policies

Share buybacks

The Company has from time to time bought back its Ordinary Shares for cancellation. Elderstreet intends to continue to buy back its Ordinary Shares at a discount of approximately 7.5% to the last published NAV, subject to liquidity, VCT regulations and the Listing Rules. The Company intends to acquire its own Ordinary Shares in

the market four times each year. The Board will agree the price at which such buybacks are undertaken which will not be more than 92.5% of the last published NAV for the Ordinary Shares although the Board may decide to buy back shares at their discretion at a larger discount subject to VCT regulations, liquidity and the Listing Rules.

The Board reserves the right to allocate Company funds reserved for buybacks across Shareholders wishing to sell on a pro rata basis rather than a first come first served basis. This may result in Shareholders only being able to sell a proportion of their holding. The Board believes this to be an equitable policy to those Shareholders who wish to exit.

The implementation of the buy-back policy in relation to Ordinary Shares will be at the Board's discretion and subject to the Company's liquidity, and stock market and other applicable regulations.

Distribution of Capital Profits and Dividends

Legislative changes have meant that VCTs can no longer return capital to investors (e.g. by way of dividends paid from cancelled share premium account) within three years of the end of the accounting period in which the relevant shares were issued, where the shares in question were issued post 5 April 2014. New Ordinary Shares issued pursuant to the Offer will be subject to this restriction.

An interim dividend of 2.5p per Ordinary Share for 2016 was declared on 30 September 2016, which will be paid on 16 December 2016. New Ordinary Shares subscribed under the Offer will not be eligible for this interim dividend but it is the Board's target to pay a dividend of between 4 pence and 5 pence per annum per Ordinary Share going forward, although at full subscription this target may drop to between 3 and 4 pence per annum (representing a 6% to 8% tax free return based on the Estimated Offer Price after factoring in initial tax reliefs). Further details on the potential yields can be found on page 21.

The Directors aim to maximise Shareholder returns and, subject to liquidity, VCT regulations and Listing Rules, aim to distribute substantially all available investment income after fees and VCT running costs. Interim dividends on Ordinary Shares are expected to be paid in November. Final dividends have generally been announced in April and are expected to be paid in May each year.

The Manager

The Manager has acted as investment manager for the Company since its inception in 1998 (initially, through its wholly owned subsidiary, Elderstreet Private Equity Limited, and since 2009 directly after the Investment Management Agreement in relation to the Company was novated from that subsidiary to itself). The Manager was founded in 1990 and currently has more than £28 million (unaudited) under management. The Manager has expertise in tax efficient investing, including VCTs and EISs, and is a specialist in the smaller company market, the unlisted sector and AIM. The Manager has strong proprietary deal flow and a "hands on" portfolio management style.

The Manager was voted VCT Fund Manager of the Year 2009 and 2010 by the Growth Company Awards. The Company was the winner of Investment Week's 2014 VCT Investment Company of the Year Awards organised by Incisive Media. These awards highlight investment companies that produce consistent performance and where there is, in the judges' opinion, a high likelihood that the investors will not be disappointed in the future.

The Company was runner up in the Growth Investor Awards Exit of the Year 2015. The Exit of the Year award recognizes investment performance against initial targets and value added to the investee business by the fund manager. Assessed in the context of type of exit, a panel of judges based their scoring on entry questions relating to investment performance, value added to the investee business, obstacles to exit and management of risk.

The Administration Manager

Downing LLP (and previously its predecessor, Downing Management Services Limited) has been the Company's Administration Manager since the Company's inception in 1998 and performs similar services for a number of other VCTs.

Fees payable to the Manager and the Administration Manager

The Manager receives an annual fee (the "Annual Fee") equal to 2.0% of the Net Assets of the Company subject to the expenses cap (see below). The Annual Fee is calculated twice a year on 30 June and 31 December and payable quarterly in advance. Downing LLP receives an annual fee of £50,000 (plus VAT) for its role as the Administration Manager.

Taking into account the expected long term returns in the form of income and capital gains, it is intended that the Annual Fees will be allocated 25% to revenue and 75% to capital.

Expenses Cap

The annual running costs (including VAT) of the Company are capped at 3.5% of its Net Assets with any excess being refunded by way of a reduction in the fees payable to the Manager and the Administration Manager pro rata to their fees during the financial year.

The running costs include, inter alia, fees payable to the Manager and the Administration Manager, Directors' fees, audit and taxation fees, registrar fees and costs of communicating with Shareholders. The expenses cap excludes the performance incentive fee.

Performance Incentive Fees

Performance incentive fees are payable to the Manager when dividends paid and/or proposed exceed 3.5p per Ordinary Share, in any one financial year subject to the NAV, before the distribution, being higher than 70.6p per Ordinary Share. The Manager will receive 20% of the distribution amount over 3.5p per Ordinary Share. The performance incentive fee will also have a catch-up should any previous year's distribution not be met. This catch-up will be cumulative so that in any years where the distribution is less than 3.5p the shortfall must be made up prior to awarding any further performance incentive fees. Any performance incentive fee payable in any period of 12 months has been capped so that the fee payable (together with any other fees payable to the Manager by the Company which have not been specifically approved by Shareholders) is capped at 24.9% of the lesser of the Company's current Net Assets, market capitalisation or gross assets. Any such fees which result in this cap being exceeded will be waived, will not be carried over to another period and will cease to be payable to the Manager.

Currently, the hurdles for these performance fees have not been met for this current financial year.

Fixed Income Securities Manager

In addition to the investment management services provided by the Manager, the Company has appointed Smith & Williamson Investment Services Limited to provide discretionary investment management services in respect of funds not invested in Qualifying Investments that are to be invested in fixed income securities. The percentage of the Company's portfolio presently managed under these arrangements was 6% as at 30 June 2016. Other managers of non-Qualifying Investments may be appointed by the Company from time to time.

Arrangement and Monitoring Fees

The Manager may charge an arrangement fee to each portfolio company in which the Company invests. This fee is restricted to 3% of the gross amount invested by the Company. The Manager may also charge portfolio companies for its monitoring services and non-executive director fees.

Conflicts between Elderstreet Funds

Should a conflict arise in respect of the allocation of an investment opportunity between the Elderstreet Funds, allocations will normally be made on a pro rata basis (allowing for appropriate rounding of investment amounts) between the Company and the other Elderstreet Funds based on the amounts available for investment in each fund at the time the investment opportunity arises. However, the Manager will be entitled to recommend to the Board (and to the directors or trustees of relevant other Elderstreet Funds) the allocation of investment opportunities on a basis otherwise than as set out above if required in order to:

- ensure that the Company establishes and/or maintains its status as a Venture Capital Trust;
- balance the portfolios of the Company in such manner as the Manager shall consider appropriate, taking account of the liquidity of the respective funds, sector balance, relative risk profile and maturity of investments (including exit considerations); or
- take account of the status of investments as Qualifying Investments under the VCT Rules from time to time.

In the event of a conflict of interest between the Company and any other Elderstreet Funds, the matter shall be referred to such Directors who are independent of the Manager (the "**Independent Directors**"), whose determination shall be final and binding on the Manager.

In particular, where the Company intends to invest in a company in which another Elderstreet Fund has invested or intends to invest, the investment shall require approval by the Independent Directors unless the investment is made either at the same time and on the same terms or in accordance with a pre-existing agreement between the Company and the Manager. The Directors and members of the Investment Management Team do, from time to time, co-invest in the Company's portfolio companies.

Where a Director has an interest of more than 1% in a portfolio company then he is disqualified from voting on decisions concerning that company.

Net Asset Value Calculation

The Company's net asset value is formally calculated every six months by the Manager, approved by the Board and published on an appropriate regulatory information service. If valuations are suspended, Shareholders will be notified in a similar manner. The calculation of the net asset value would only be suspended in circumstances where the underlying data necessary to value the investments of the Company could not readily, without undue expenditure, be obtained.

VCT Status Monitoring

The Directors have appointed Philip Hare & Associates LLP to advise the Company on compliance with the taxation legislative requirements relating to VCTs.

Philip Hare & Associates LLP will, if requested by the Board, review the qualifying status of new investment opportunities and carry out regular reviews of the Company's investment portfolio.

Philip Hare & Associates LLP work closely with the Manager and the Administration Manager, but will report directly to the Board. At its outset the Company obtained HMRC approval. Since then the Company has continued to meet the conditions for approval as a Venture Capital Trust laid down in Section 274 of the ITA.

MANAGEMENT TEAM

The Investment Management Team

The Investment Management Team comprises four key executives with extensive industry backgrounds and in aggregate more than 50 years of venture capital experience. This experience has enabled the Manager to build up strong long-term business relationships, not only with the companies in which it has invested, but also with the key introducers of new investment enquiries in the sectors in which it operates, particularly in the software, support services and manufacturing sectors. The Manager has developed effective procedures for the post investment monitoring and support of portfolio companies by way of board representation, monitoring of management accounts and internal reporting practices. The Directors believe that such procedures are an essential element in successful venture capital management.

The Manager is actively involved with its investments, taking non-executive positions where appropriate, and has the ability and experience to add value to the investments.

Draper Esprit believe the Group's membership of the Draper Venture Network provides it with a significant advantage in the origination and diligence of potential investments, the generation of market intelligence and the development of valuable corporate relationships. It also enables the Group to provide portfolio companies with assistance in approaching sources of funding in the United States for future fundraising rounds and provides them with an opportunity to expand into new and lucrative markets or to position them in global markets with the intention of attracting higher valuations at exit. PART 4

INFORMATION RELATING TO THE OFFER

The Offer

The Offer is for New Ordinary Shares. The maximum number of New Ordinary Shares expected to be issued pursuant to the Offer is 14.2 million, representing approximately 28% of the enlarged issued Ordinary Shares of the Company (assuming the Maximum Subscription is raised and the Offer size is not increased at the Directors' discretion). This equates to a maximum approximate net amount to be raised of £9,450,000 based on Offer costs of 5.5%. The Offer is cost-neutral as regards the NAV of the Company as the costs are borne entirely by subscribers through the application of the Pricing Formula. There is no minimum subscription required for the Offer to proceed.

The unaudited net asset value per Ordinary Share as at 30 June 2016 was 68.9p (this being the most recent NAV per Ordinary Share published by the Company prior to the publication of this document). The Net Asset Value on which the price for the New Ordinary Shares is based is 66.4p per Ordinary Share, being the NAV of 68.9p as adjusted to reflect the payment of the 2.5p interim dividend declared in June 2016 and payable in December 2016. The Estimated Offer Price of 70.3p is the adjusted NAV of 66.4p grossed up for estimated Offer costs of 5.5%. Should there be a material movement in the NAV between the normal reporting dates, the Company may announce an updated unaudited NAV, which will be used to calculate the number of New Ordinary Shares to be allotted.

Reasons for the Offer

The Company is raising funds by way of the Offer for the tax years 2016/17 and 2017/18 to fund another phase of investment, as a result of the Company being almost fully invested. The Company considers that its new co-investment agreement with Draper Esprit will lead to a number of attractive investment opportunities for which new capital will be required.

The Offer will be open until 1 May 2017 (or such later date as the Directors may decide) though Investors who wish to have some or all of their New Ordinary Shares allotted in the tax year 2016/17 must return their Applications Forms so they are received by 5 April 2017. The Offer may close earlier if the Maximum Subscription is reached. VCTs are tax-efficient investment vehicles with both substantial income tax relief and freedom from capital gains tax on disposal of shares.

Benefits for Existing Shareholders

The Directors believe that the proposed fundraising under the new Offer will benefit Existing Shareholders in the following ways:

- Shareholders will suffer no NAV dilution as a result of the Offer as New Ordinary Shares will be issued at a price equal to NAV plus offer costs
- The New Ordinary Shares issued will increase the capital available to the Company which may be invested alongside existing capital. This affords existing Shareholders investment opportunities they might not otherwise have.
- The running costs of the Company will be spread over a larger combined asset base as a result of the issue of New Ordinary Shares, thereby reducing the level of the running costs attributable to each existing holder of Ordinary Shares and, therefore, providing the potential for enhanced returns to Existing Shareholders.
- The Board believe the co-investment agreement with Draper Esprit will bring substantial benefits to both existing and prospective new investors. Whilst there will be no change to the generalist investment policy of the Company, the ability to join a funding syndicate of Draper Esprit funds will bring access to larger deals in companies that enjoy higher revenues and which operate in high growth sectors. These more developed companies can scale very quickly and have the potential to IPO, exit, or attract further funding rounds more quickly than lower revenue companies.

Benefits for new Shareholders

The Directors believe that the proposed fundraising through the Offer may benefit new Shareholders in the following ways:

- The issue of the New Ordinary Shares provides new Shareholders with immediate exposure to Elderstreet's existing portfolio, including a number of mature companies.
- The issue of the New Ordinary Shares also gives new Shareholders exposure to companies within Elderstreet's existing portfolio which may no longer be able to receive VCT investment as they may not be Qualifying Investments under the amended legislation.

Use of proceeds

The Board intends to invest the net proceeds from the Offer in accordance with the Company's existing investment policy as set out on pages 23 to 25.

The Company intends to invest at least 70% of funds raised in Qualifying Investments by 30 April 2020 and up to 30% invested in non-Qualifying Investments, including fixed income securities. The net proceeds of the Offer will be approximately £9.45 million with expenses of approximately £550,000 (in each case assuming Maximum Subscription and total costs of 5.5% on all Applications).

and

(2) Full rebate of initial commission, where the Adviser has waived this for additional New Ordinary Shares

Where an Investor's Application Form is received and accepted on or before 4.00 p.m. on 28 February 2017

(1) 1.5% rebate of Promoter's Fee as additional New Ordinary Shares;

and

(2) Full rebate of initial commission, where the Adviser has waived this for additional New Ordinary Shares

(subject to a cumulative maximum rebate of 4.5%)

Pricing of the Offer

Investors are invited to subscribe an amount in pounds sterling rather than apply for a particular number of New Ordinary Shares. The fees payable to the Promoter (subject to applicable early investment incentives) and to the Investor's financial intermediary will be taken into account in calculating the number of New Ordinary Shares the Investor will receive.

The price per New Ordinary Shares to be issued to each Applicant in the Company will be calculated based on the following Pricing Formula:

$$\text{PRICE PER NEW ORDINARY SHARE (IN PENCE)} = \text{NET ASSET VALUE} / X$$

$$X = 1 - \text{NET TOTAL FEES}^1 (\%)$$

The resulting price per New Ordinary Share will be rounded down to 1 decimal place. The number of New Ordinary Shares to be issued will be calculated by dividing the amount subscribed by the offer price and rounding down to the nearest whole Share.

If an updated NAV per Ordinary Share is announced after publication of this document, this updated NAV will be used to calculate the price and the number of New Ordinary Shares to be issued. Should there be a material movement in the NAV between the normal reporting dates, the Company may announce an updated unaudited NAV by announcement on a Regulation Information Service. The NAV used in the Pricing Formula will be adjusted, as required, to account for dividends payable to existing Shareholders where these are not yet reflected in the NAV.

Example 1

If an Investor (paying a combined Promoter's Fee and Adviser Charge to his intermediary of 5.5% and assuming he was not entitled to the Early Investment Incentive) were to subscribe £10,000, with the Company's adjusted Net Asset Value standing at **66.4p**, they would pay **70.3p** per Share and receive a total of **14,224** New Ordinary Shares.

Example 2

An Investor in the same circumstances as above but who had agreed a smaller Adviser Charge (assuming a standard Adviser Charge of 2.5%) of 1.0% with their financial intermediary would pay a combined fee of 4.5%. This would mean the Investor pays **69.6p** per Share and would receive **14,367** New Ordinary Shares for his £10,000 subscription.

In each case, the Company shall settle fees to the Promoter and to Investors' financial intermediaries from the gross subscriptions received from Investors.

Example 3 (Early Investment Incentives)

If an Investor submits his Application Form before 31 January 2017, he will have 2.0% of the usual Promoter's Fee rebated to him in the form of additional New Ordinary Shares (1.5% where investment is received before 28 February 2017) under the Early Investment Incentive.

If his adviser is eligible for commission but chooses to waive this entirely in lieu of additional shares, the Investor will be entitled to receive the maximum rebate available under the terms of the Offer of 4.5%. In this case, his total offer costs would be only 1.0%, and, for a £10,000 subscription where the latest adjusted NAV of the Offer Shares is 66.4p, he will receive **14,903** New Ordinary Shares at an effective subscription price of **67.1p** per share.

Where a different early Investor has instead agreed an Adviser Charge with their intermediary of 3.0%, he will still enjoy a 2.0% rebate of the Promoter's Fee and his total offer costs will be 4.0%. For his £10,000 subscription, where the latest adjusted NAV of the Offer Shares is 66.4p, he will receive **14,450** New Ordinary Shares at an effective subscription price of **69.2p** per share.

In each case, Investors can then claim VCT income tax relief of 30% on their **gross subscription** rather than the net amount after the payment of fees subject to their personal circumstances. This would equate to £3,000 of relief in respect of the £10,000 subscription noted in the above examples.

Some further information about when Adviser Charges are applicable and when Commission is applicable is set out below.

Adviser Charges

Commission (including on-going trail commission) is generally not permitted to be paid to Intermediaries who provide a personal recommendation to UK retail clients on investments in VCTs. Instead of commission being paid by the VCT, an Adviser Charge will usually be agreed between the intermediary and Investor for the advice and related services. This fee can either be paid directly by the Investor to the intermediary or, if it is an initial one-off fee, the payment of such fee may be facilitated by the Company out of the Investor's funds received by the Company. Ongoing fees to intermediaries will not be facilitated by the Company. If the payment of the Adviser Charge is to be facilitated by the Company, then the Investor is required to specify the amount of the charge in box 3 of the relevant Application Form. The Investor will be issued fewer New Ordinary Shares (to the equivalent value of the Adviser Charge) through the Pricing Formula set out above. The Adviser Charge is deemed to be inclusive of VAT, where applicable.¹

Commission

Commission may be payable where there is an Execution Only Investor and no advice has been provided by the intermediary to the Investor. Commission is payable by the Company and is taken into account in the Pricing Formula. Those Intermediaries who are permitted to receive commission will usually receive an initial commission of 2% of the amount invested by their clients under the Offer. Additionally, provided that the intermediary continues to act for the Investor and the Investor continues to be the beneficial owner of the New Ordinary Shares, and subject to applicable laws and regulations, the Intermediary will usually be paid an annual trail commission of 0.25% of their client Investors' gross subscriptions for five years. Trail commission will be paid annually in October (commencing in October 2017) by the Company.

Minimum Subscription

The minimum subscription amount for an Applicant in relation to the New Ordinary Share is £6,000 and, provided this condition is met, Applications under the Offer may be for any amount thereafter in multiples of £1,000. There is no maximum individual subscription level under the Offer but the maximum investment on which tax reliefs on investments in VCTs are currently available is £200,000 in the 2016/17 tax year (£200,000 per spouse).

The Offer will not be revoked in respect of New Ordinary Shares that have been admitted to the Official List and to trading on the London Stock Exchange.

Capital Raising Fees

The Manager has agreed, in return for its Promoter's Fee, to be responsible for paying the costs of the Offer. Excluded from such costs are any initial commissions or Adviser Charges payable in relation to applications, which are facilitated through the Pricing Formula, any trail commission payable in the future, the cost of a circular and the Registrar's costs in issuing the applicable share certificates all of which will be payable by the Company.

Timetable

The Offer will remain open until the earlier of 4.00 p.m. on 1 May 2017 (unless previously extended by the Directors) and the date on which the relevant Maximum Subscription is reached though Application Forms specifying that some or all Shares are to be allotted in the tax year 2016/17 must be returned by 10.00 a.m. on 5 April 2017. The results of the Offer and any exercise of the Directors' right to extend the Offer will be announced to the London Stock Exchange through a Regulatory Information Service provider authorised by the Financial Conduct Authority. It is expected that dealings will commence no later than 10 Business Days following the date of allotment. Share certificates are expected to be issued (and, where relevant, CREST accounts credited) no later than 10 Business Days following the date of allotment.

¹ Net Total Fees are the Promoter's Fee and Commission/Adviser Charge, each expressed as a percentage of the amount subscribed, adjusted for any applicable Early Investment Incentive. The Net Total Fees figure will in each case be calculated as a percentage of 1 (e.g. 0.055 would equate to 5.5%).

Application procedure

The Directors in their absolute discretion will determine the basis of allocation of the New Ordinary Shares but expect to allocate on a first come/first served basis. To the extent that any Application is not accepted, any excess payment will be returned without interest by returning the Applicant's payment through the post at the risk of the person entitled thereto. The Receiving Agent will not acknowledge receipt of Applications unless an email address is provided in which case an email acknowledgement will be sent. An Application Form together with notes on its completion is set out at the end of this document.

Provided that Applications are for the minimum subscription amount of £6,000, they can be for any amount thereafter in multiples of £1,000. Application Forms should be sent or delivered, together with the full amount payable in respect of the Application, by post or by hand to The City Partnership (UK) Ltd, 110 George Street, Edinburgh EH2 4LH. All payments must be made in pounds sterling by cheque or banker's draft made payable to "City Partnership - Elderstreet VCT plc" and crossed "A/C payee only". Your attention is drawn to the statements concerning the Money Laundering Regulations 2007 in the terms and conditions of application. A person may make multiple Applications, each of which will be treated as a separate Application by the Company.

Admission to trading and dealing arrangements

Application will be made for Admission in respect of the New Ordinary Shares. Following Admission, announcements of allotments pursuant to the Offer will be made as required by the Listing Rules. It is expected that Admission will become effective and dealings in the New Ordinary Shares will commence within 10 Business Days after their allotment. Definitive share certificates are expected to be despatched to successful Applicants by post within 10 Business Days of their allotment, and successful Applicants will be notified of the total number of New Ordinary Shares issued to them by receipt of such share certificates. Temporary documents of title will not be used in connection with the allotment of New Ordinary Shares. Dealings prior to receipt of share certificates will be at the risk of the Applicants.

New Ordinary Shares will be in registered form capable of being transferred by means of the CREST system. Those Applicants who wish to take advantage of the ability to trade in New Ordinary Shares in uncertificated form, and who have access to a CREST account, may arrange with their CREST operator to hold their New Ordinary Shares in dematerialised form. Investors should be aware that New Ordinary Shares delivered in certificated form are likely to incur higher dealing costs than those in respect of Shares held in CREST.

PART 5

BENEFITS OF VENTURE CAPITAL TRUSTS

Venture Capital Trusts provide private investors with an attractive and tax-efficient method of investing in a portfolio of small to medium-size trading companies in the UK. It is often difficult for private investors to have access to such investment opportunities, and few have the time or means to identify, assemble and monitor a portfolio of companies with such potential. VCTs also offer substantial tax benefits to private investors.

The principal benefits offered by VCTs to private investors are:

Income tax relief Private investors subscribing for new shares in a VCT in the 2016/17 or 2017/18 tax years should receive income tax relief at 30% of the amount subscribed against their income tax liability in the year of subscription, provided that such shares are held for at least five years.

Tax-free dividends Private investors should be exempt from income tax on dividends received from a VCT.

Capital gains tax exemption There should be no capital gains tax on disposal of shares in a VCT; conversely there is no relief for losses.

Personal taxation benefits All the reliefs described above are available to individual investors, provided certain conditions are met and the shares are acquired within the permitted maximum of £200,000 in any one tax year. Relief from income tax on investment only applies to subscriptions for new shares.

Professional investment team VCTs are advised by professional advisers with specific experience and proven track records. Prior to the launching of a VCT the investment manager(s) must meet certain criteria laid down by the FCA Rules and the VCT must have obtained approval (provisional or full) by HMRC.

Corporate governance VCTs must appoint a board of directors who are majority independent of the investment manager(s) and led by an independent Chairman.

Spread of investments VCTs spread their investments across a range of companies (either within the same sector or across several sectors), with a view to creating a more balanced portfolio than could be achieved by individuals investing in separate companies.

Tax-free realisations Capital gains realised by a VCT should be exempt from corporation tax within the VCT thereby potentially increasing distributions to shareholders.

Admission to the Official List The shares of a VCT must be listed on a European regulated market providing investors with a potential market to trade their shares and a means of assessing their value.

The above is only an outline of the tax reliefs and should be read in conjunction with the detailed provisions of the current legislation, a summary of which appears in Parts 6 and 7 of this prospectus.

Prospective investors are recommended to consult a professional adviser as to the taxation consequences of investment in a VCT.

PART 6

TAX POSITION OF INVESTORS

The tax reliefs set out below are available to individuals aged 18 or over who subscribe under the Offer. Whilst there is no specific limit on the amount of an individual's acquisitions of shares in a VCT, tax reliefs will only be given to the extent that the total of an individual's subscriptions or other acquisitions of shares in VCTs in any tax year does not exceed £200,000. Tax treatment depends on the individual circumstances of each Investor and may be subject to change in the future.

Investors who intend to invest more than £200,000 in VCTs in any one tax year should consult their professional advisers.

(a) Income Tax

(i) Relief from income tax on investment

A private investor subscribing for New Ordinary Shares will be entitled to claim income tax relief on amounts subscribed (along with any other VCT shares subscribed for) up to a maximum of £200,000 in any tax year. For the 2016/17 and 2017/18 tax years the relief is given at 30% of the amount subscribed although the relief cannot exceed the amount which reduces the Investor's income tax liability to nil. Investments to be used as security for or financed by loans may not qualify for relief, depending on the circumstances. Tax relief is restricted on subscriptions for shares in a VCT where, within six months of subscription, the investor disposes of shares in the same VCT (or in another VCT which at any time merges with that VCT).

(ii) Dividend relief

An Investor who acquires in any tax year New Ordinary Shares having a value (along with any other VCT shares acquired by him in that tax year) of up to £200,000 will not be liable to income tax on dividends paid by the VCT on those shares.

The return to Investors from the Company will depend on the type of profit received by it. Capital gains realised by a VCT are tax-free. No tax is payable by a VCT on distributing these gains by way of dividend and such dividends are received tax-free by shareholders who benefit from dividend relief. However, income received by a VCT will usually constitute either interest (on which the VCT may be subject to tax) or a dividend from a UK company (on which the VCT would not be subject to tax). Such income as is reduced by the payment of tax (if applicable) can be distributed tax-free to shareholders who benefit from dividend relief. It is expected, however, that the bulk of the returns generated by the Company will derive from the realisation of capital gains from its portfolio.

(iii) Purchases in the market

An individual purchaser of existing Ordinary Shares in the market will be entitled to claim dividend relief (as described in paragraph (ii) above) but not relief from income tax on the purchase price.

(iv) Withdrawal of relief

Relief from income tax on a subscription for shares in a VCT is withdrawn if the shares are disposed of (other than between spouses) within five years of issue or if the VCT loses its approval within this period (see below). Relief also ceases to be available on any dividend paid in respect of profits or gains in any accounting period ending at a time when VCT status has been lost.

(b) Capital Gains Tax

(i) Relief on the disposal of New Ordinary Shares

A disposal by an Investor of New Ordinary Shares will give rise to neither a chargeable gain nor an allowable loss for the purposes of UK capital gains tax. The relief is limited to the disposal of New Ordinary Shares acquired within the limit of £200,000 for any tax year, determined as for dividend relief.

(ii) Purchases in the market

An individual purchaser of existing Ordinary Shares in the market will be entitled to claim relief on disposal (as described in paragraph (i) above).

(iii) Withdrawal of relief

If a company which has been granted approval as a VCT subsequently fails to comply with the conditions for approval, approval as a VCT may be withdrawn or treated as never having been given. The exemption from corporation tax on capital gains will not apply to any gain realised by the VCT after this time. If VCT approval is withdrawn, any gains on the New Ordinary Shares up to the date from which loss of VCT status is treated as taking effect will be exempt but gains thereafter will be taxable.

Obtaining tax reliefs

A VCT will provide to each investor a certificate which the investor may use to claim income tax relief, either by obtaining from HMRC an adjustment to his tax code under the PAYE system or by waiting until the end of the tax year and using his tax return to claim relief.

Investors not resident in the UK

Investors not resident in the UK should seek their own professional advice as to the consequences of making an investment in a VCT, as they may be subject to tax in other jurisdictions as well as in the UK.

The above is only a summary of the law as at the date of this document concerning the tax position of investors in VCTs. The tax rates and reliefs shown are those currently in use and could alter in future years. Prospective investors are recommended to consult a professional adviser as to the taxation consequences of investment in a VCT.

PART 7

TAX POSITION OF THE COMPANY

1. Qualification as a VCT

The legislation relating to VCTs sets out tests which a company has to satisfy to obtain the tax benefits for the VCT and its shareholders. The legislation summarised below is that in force as at the date of this Prospectus.

To qualify as a VCT, a company must be approved as such by HMRC. To obtain approval:

- (a) it must not be a close company;
- (b) it must have each class of its ordinary share capital listed on a European regulated market throughout the accounting period following that in which the application for approval is made;
- (c) it must derive its income wholly or mainly from shares or securities;
- (d) at least 70% by value of its investments must be represented by shares and securities comprising Qualifying Investments; and
- (e) as regards funds raised:
 - (i) prior to 6 April 2011, at least 30% by value of its Qualifying Investments must be represented by holdings of 'eligible shares'. For such funds, 'eligible shares' are ordinary shares which carry no present or future preferential rights to dividends or to a portfolio company's assets on its winding-up, and no present or future right to be redeemed; and
 - (ii) after 5 April 2011, at least 70% by value of its Qualifying Investments must be represented by holdings of 'eligible shares'. For such funds, 'eligible shares' are ordinary shares which carry no present or future preferential rights to a portfolio company's assets on its winding-up, and no present or future right to be redeemed, but which may have certain preferential rights to dividends;
- (f) in addition, at least 10% of its total investment in any Qualifying Company must consist of eligible shares;
- (g) not more than 15% by value of its investments may be in a single company or group (other than a VCT or a company which would, if its shares were listed, qualify as a VCT);
- (h) not more than 15% of its income derived from shares and securities in any accounting period may be retained;
- (i) the VCT must only make Qualifying Investments, or certain non-qualifying investments permitted by section 274 ITA 2007;
- (j) no investment by a VCT can cause a company to receive more than a total of £5 million in any period of twelve months, nor than £12 million (£20 million for "knowledge intensive" companies) over its lifetime, of State Aid risk finance;
- (k) a VCT cannot invest in a company whose first commercial sale was more than seven years ago (ten years for a "knowledge intensive" company) unless the company had previously received State Aid risk finance within that period or a turnover test is met; and
- (l) an investment by a VCT cannot be used by an investee to acquire a trade, business or shares in a company.

Conditions (j) to (l) above do not apply to ordinary shares or securities listed on a regulated market (such as the London Stock Exchange) or to shares or units in alternative investment funds or UCITS which may be repurchased or redeemed on seven days' notice.

2. Qualifying Investments

To be a Qualifying Investment, an investment must consist of shares or securities first issued to the VCT (and held by it ever since) by an unquoted company satisfying certain conditions. The conditions are complex but include conditions that any investment must be in a qualifying company which must:

- (a) have gross assets not exceeding £15 million immediately before and £16 million immediately after the VCTs investment (these tests are applied on a group basis if applicable);
- (b) have fewer than 250 full-time employees (or their equivalents) at the date on which the VCT investment is made (this test is applied on a group basis if applicable);
- (c) not have raised more than £5 million in the 12 month period ending on the date of the VCT's investment, nor more than a lifetime total of £12 million (£20 million for a "knowledge intensive" company), from State Aid sources including from VCTs and under the Enterprise Investment Scheme;
- (d) have had its first commercial sale less than seven years ago (ten years for a "knowledge intensive" company) unless the company had previously received State Aid risk finance within that period or a turnover test is met;
- (e) apply the money raised for the purposes of a qualifying trade within certain time periods and more generally for the purpose of growth and development of its business;
- (f) must at all times have a permanent establishment in the United Kingdom; and
- (g) not be controlled by another company.

Companies whose shares are traded on AIM are treated as unquoted companies for the purposes of eligibility as a Qualifying Investment. Unquoted company shares that subsequently become listed may still be regarded as a Qualifying Investment for a further five years following listing, provided all other conditions are met.

3. Qualifying Companies

A qualifying company must exist wholly or mainly for the purpose of carrying on a qualifying trade or be the parent company of a qualifying trading group. For this purpose certain activities are prohibited such as dealing in land or shares or providing financial, legal or accountancy services, managing nursing homes or hotels (where the manager is in occupation or owns an interest in the land), property development, leasing or farming, shipbuilding, and coal and steel production. The trade must either be carried on by, or be intended to be carried on by, the qualifying company or by a qualifying subsidiary at the time of the issue of its shares or securities to the VCT (and by such company or its qualifying subsidiary at all times thereafter). A qualifying subsidiary is at least 90% directly owned by the qualifying company, or is a 100% subsidiary of at least a 90% subsidiary of the qualifying company, or is at least a 90% subsidiary of a 100% subsidiary of the qualifying company.

A company intending to carry on a qualifying trade must begin to trade within two years of the issue of shares or securities to the VCT.

A qualifying company can be the parent company of a trading group. If this is the case, the group, when taken together as one business, must carry on activities which constitute a qualifying trade. Any subsidiary must be more than 50% owned. However, if a subsidiary is one which carries on the trade by reference to which the investment is to qualify as a Qualifying Investment, that subsidiary must be a 90% qualifying subsidiary as described above.

4. Approval as a VCT

A VCT must be approved at all times by HMRC. Approval has effect from the time specified in the approval. A VCT cannot be approved unless the tests are met throughout the most recent complete accounting period of the VCT and HMRC is satisfied that they will be met in relation to the accounting period of the VCT which is current when the application is made. However, in order to facilitate the launch of a VCT, HMRC may provisionally approve a VCT notwithstanding that certain of the tests are not met at the time of application, provided that HMRC is satisfied that the tests will be met within certain time limits. In particular, in the case of the test described at 1(d) above, approval may be given if HMRC is satisfied that this will be met throughout an accounting period of the VCT beginning no more than three years after the date when approval takes effect.

5. Withholding Tax at Source

There is no withholding tax on dividends paid by a UK company and, consequently, the Company does not assume responsibility for withholding tax at source on dividends.

- 3.8 None of the Directors nor any member of the Investment Adviser has for at least the previous five years: (i) had any convictions in relation to fraudulent offences; or (ii) been associated with bankruptcies, receiverships or liquidations (save for members' voluntary liquidations) in relation to an entity for which they have been acting as members of the administrative, management or supervisory bodies or senior management who was relevant to establishing that the entity had the appropriate expertise and experience for the management of its business; or (iii) been subject to any official public incrimination and/or sanctions by any statutory or regulatory authority (including designated professional bodies) or been disqualified by a Court from acting as a director or member of the administrative, management or supervisory bodies of a company or from acting in the management or conduct of the affairs of any issuer.
- 3.9 The Company complies with the provisions of the UK Corporate Governance Code, with the exception of the following, for the reasons set out below:
- (i) new Directors do not receive a full, formal and tailored induction on joining the Board and such matters are addressed on an individual basis as they arise. In addition, as the Company does not have any major shareholders, shareholders are not given an opportunity to meet any new non-executive directors at specific meetings other than at the general meetings of the Company;
 - (ii) due to the size of the Board, there are no formal performance evaluations of the Board, their committees, the individual Directors or the Chairman. Specific performance issues are dealt with as they arise; and
 - (iii) the Directors do not have service contracts but do have consultancy agreements, further details of which are set out at 3.5 above, whereas the recommendation in the UK Corporate Governance Code is for fixed term renewable contracts.

The Board comprises five members, all of whom are non-executive directors and the majority of whom are considered to be independent of the Manager.

The Board meets regularly throughout the year (normally at least quarterly) and all necessary information is supplied to the Directors on a timely basis to enable them to discharge their duties effectively. Additionally, special meetings take place or other arrangements are made when Board decisions are required in advance of regular meetings. The Board is responsible for controlling the Company. The Board is responsible for the determination and calculation of the Company's Net Asset Value, which will be undertaken in accordance with the Company's accounting policies (the Company's current accounting policies are set out on pages 36 and 37 of its report and accounts for the year ended 31 December 2015) and published on an appropriate regulatory information service (including in the announcement of annual and half yearly results of the Company). In the unlikely event that valuation was suspended, where the underlying data necessary to value the investments of the Company could not readily, without undue expenditure, be obtained, such suspension would be communicated to shareholders in a similar manner.

- 3.10 As the Company has a small Board of non-executive Directors, all Directors sit on the Nomination Committee and Remuneration Committee. David Brock is the Chairman of both Committees. David Brock and Hugh Aldous sit on the Audit Committee. Hugh Aldous is Chairman of the Audit Committee. Committee meetings are held in conjunction with the Board meetings. The Audit Committee is responsible for:
- monitoring the Company's financial reporting;
 - reviewing internal controls and risk management systems; and
 - matters regarding audit and external auditors.

The Remuneration Committee meets, as required, to discuss the existing levels of remuneration for the non-executive Directors and whether they reflect the time commitment and responsibilities of the positions and are comparable with industry standards. Where deemed necessary, they will recommend adjustments to the remuneration levels.

4. General Information

- 4.1 There have not been any governmental, legal or arbitration proceedings in the 12 months prior to the publication of this document which may have, or have had in the recent past a significant effect on the financial position or profitability of the Company, nor are there any such proceedings pending or threatened of which the Company is aware.

- 4.2 No person receiving a copy of this document or an Application Form in any territory other than the UK may treat the same as constituting an offer or invitation to him to subscribe for or purchase New Ordinary Shares.
- 4.3 Shareholders' authority to create, allot and issue new Ordinary Shares up to an aggregate maximum nominal value of £1,500,000, with pre-emption rights disapplied in respect of such issues, was obtained at the annual general meeting of the Company held on 28 June 2016. All Shareholders will have the same voting rights in respect of the existing share capital of the Company. An existing holder of Ordinary Shares who does not subscribe for New Ordinary Shares pursuant to the Offer would experience no dilution in terms of NAV per share (as the assets of the Company will be increased by the proceeds of the Offer and the upfront costs of the Offer are borne by subscribers). The Offer Shares are ordinary shares of five pence each (ISIN: GB0002867140) created under the CA 2006 and are freely transferable.
- 4.4 No action has been taken to permit the distribution of this document in any jurisdiction outside the UK where such action is required to be taken. All applicants under the Offer will be required to warrant that they are not a US Person.
- 4.5 All information regarding Draper Esprit in this Prospectus has been sourced by the Company from Draper Esprit plc and has been accurately reproduced and that as far as the issuer is aware and is able to ascertain from information published by that third party, no facts have been omitted which would render the reproduced information inaccurate or misleading.
- 4.6 Where other information set out in this document has been sourced from third parties the source has been identified at the relevant place in the document and the Company confirms that this information has been accurately reproduced and, as far as the Company is aware and able to ascertain from information published, no facts have been omitted which would render the reproduced information inaccurate or misleading.

5. Material Contracts

- 5.1 Under an agreement (the "Investment Management Agreement") dated 30 January 1998 between the Company and the Manager (which was subsequently novated to the subsidiary of the Manager, Elderstreet Private Equity Limited, varied by an agreement dated 1 July 2009 and subsequently novated back to the Manager), the Manager provides investment advisory services to the Company in respect of its portfolio of Qualifying Investments for a fee of 2% of net assets (as defined in the agreement), together with a performance incentive fee. Performance incentive fees are payable when dividend payments and/or distributions equivalent to not less than 3.5p per Share in any one financial year are made. As long as the NAV, before the distribution, is higher than 70.6p per Share, the Manager will receive 20% of the distribution amount over 3.5p per Share. The performance incentive fee will also have a catch-up should any previous year's distribution not be met. This catch-up will be cumulative so that in any years where the distribution is less than 3.5p the shortfall must be made up prior to awarding any further incentive fees. Any performance incentive fee payable in any period of 12 months has been capped so that in any 12 month period, the fee payable under the incentive arrangements (together with any other fees payable to the Manager by the Company which have not been approved by Shareholders) is capped at 24.9% of the lesser of the Company's current Net Assets, market capitalisation or gross assets. Any such fees which result in this cap being exceeded will be waived, will not be carried over to another period and will cease to be payable to the Manager. These fees are calculated in respect of each year ended 31 December following approval of the audited accounts by Shareholders.

Further, under the Investment Management Agreement, the annual running costs of the Company (including VAT) are capped at 3.5% of its net asset value (as defined in the agreement) with any excess being refunded by way of a reduction in the fees payable to the Manager and to the Administration Manager pro rata. The Manager is also entitled to certain non-executive directors' fees, arrangement fees and expenses in respect of any investee company.

- 5.2 Under an agreement dated 30 January 1998 originally between the Company and Downing Management Services Limited and novated by a deed of novation dated 25 August 2011 such that since 1 June 2011 the parties thereto are the Company and Downing LLP (the "Administration Agreement"), Downing will provide or procure the provision of certain administration services to the Company for a capped fee of £50,000 (plus VAT).

- 5.3 An offer agreement dated 12 December 2016 between the Company (1), the Directors (2) the Promoter (3) and the Sponsor (4) whereby the Promoter has agreed to act as promoter in connection with the Offer and the Sponsor has agreed to act as sponsor. The agreement contains warranties given by the Company and the Directors to the Promoter and the Sponsor and an unlimited indemnity to the Sponsor. The Company will pay to the Promoter a promoter's fee of up to 5.5% of funds raised under the Offer, depending on the category of subscriber, and is also responsible for paying initial and trail commission in respect of the Offer where applicable.
- 5.4 Michael Jackson is a director of and shareholder in the Manager which is entitled to performance incentive fees and investment management fees from the Company, as well as Promoter's Fees in relation to the Offer.
- 5.5 Nicholas Lewis is a member of Downing LLP, which provides administration services to the Company in relation to the agreement described in paragraph 5.2 above.
- 5.6 On 10 December 2015, as a result of the VCT rule changes implemented in November 2015, the Company entered into an agreement with the Manager whereby the Manager agreed to purchase the two loans that the Company had granted to Snacktime Plc, which were in the aggregate principle amount of £450,000, for an initial payment of £50,000 and deferred consideration equal to 75% of any ultimate realisation on redemption or conversion of those loans. The Manager is also entitled to Promoter's Fees in relation to its services to the Company in its role as promoter of the Offer (as referred to in the section "Capital Raising Fees" on page 39 of this document). For the purposes of these agreements (in relation to the purchase of those loans and the payment of Promoter's Fees), the Manager was a related party of the Company under the Listing Rules and, as such, each of those transactions was a smaller related party transaction in accordance with Listing Rule LR 11.1.10R.
- 5.7 The Directors are not aware of any potential conflicts of interests between their duties to the Company and their private interests or other duties. There are no family relationships between the Directors at the date of this document.
- 5.8 There are no interests which are material to the Offer.
- 5.9 The typical investor for whom investment in the Company is designed is an individual retail investor aged 18 or over who is a UK tax payer.
- 6 The Company and its Shareholders are subject to the provisions of The City Code on Takeovers and Mergers and the Act, which require shares to be acquired/transferred in certain circumstances.

9. Articles of Association

9.1 The Company's principle object is to carry on business as an investment company and a venture capital trust. The Memorandum of Association and Articles of Association are available for inspection at the address specific in paragraph 8 above.

9.2 Set out below is a summary of certain key provisions of the Company's Articles of Association which were adopted on 5 February 2014:

A. Voting rights

Every Shareholder present in person at a general meeting shall upon a show of hands have one vote and every Shareholder present in person or by proxy shall upon a poll have one vote for every share held by him.

The share capital of the Company is divided into Ordinary Shares and Sustainable Technology Shares, each with a nominal value of 5p per share.

B. Dividends

The Company in general meeting may declare a dividend to be paid to the Shareholders according to their respective rights and interests in the profits, but no larger dividend shall be declared than is recommended by the Directors.

The Ordinary Shareholders shall be entitled to receive, in that capacity, any dividends paid out of the profits available for distribution derived from the assets attributable to the Ordinary Shares.

The Sustainable Technology Shareholders shall be entitled to receive, in that capacity any dividends paid out of the profits available for distribution derived from the assets attributable to the Sustainable Technology Shares.

C. Distribution of assets on liquidation

On a winding up the capital and assets of the Company shall be applied as follows: (a) the Ordinary Share Surplus, being the net assets of the Company less those attributable to the Sustainable Technology Shares and a proportion of the fees and expenses of the liquidator, shall be divided amongst the holders of the Ordinary Shares pro rata according to their holding of Ordinary Shares and (b) the Sustainable Technology Share Surplus, being the net assets of the Company less those attributable to the Ordinary Shares and a proportion of the fees and expenses of the liquidator, shall be divided amongst the holders of Sustainable Technology Shares pro rata according to their holding of Sustainable Technology Shares.

D. Transfer of Shares

Shares may be transferred by means of the CREST system.

The Directors may, in their absolute discretion and without assigning any further reason therefore, refuse to register any share transfer unless

- it is in respect of a fully paid share;
- it is in respect of a share on which the Company does not have a lien;
- it is in respect of only one class of shares;
- it is in favour of not more than four joint holders as transferees; and
- the conditions referred to in the next succeeding Article have been satisfied in respect thereof.

If the Directors refuse to register a transfer they shall within two months after the date on which the transfer was lodged with the Company send to the transferee notice of the refusal and return to him the instrument of transfer. The registration of transfers may be suspended at such times and for such period as the Directors may from time to time determine and either generally or in respect of any class of shares provided that the register shall not be closed for more than thirty days in any year.

E. Variation of rights

If at any time the capital is divided into different classes of shares all or any of the rights or privileges attached to any class may be varied or abrogated (a) in such manner (if any) as may be provided by such rights, or (b) in the absence of any such provision either with the consent in writing of the holders of at least three-fourths of the nominal amount of the issued shares of that class or with the sanction of a special resolution passed at a separate meeting of the holders of the issued shares of that class, but not otherwise.

The creation or issue of shares ranking pari passu with or subsequent to the shares of any class shall not (unless otherwise expressly provided by these Articles or the rights attached to such last mentioned shares as a class) be deemed to be a variation of the rights of such shares.

F. Increase or reduction of capital

The Company may, from time to time, by Ordinary Resolution, increase the capital of the Company by the creation of new shares, such increase to be of such aggregate amount and to be divided into shares of such respective amounts as the resolution may prescribe.

The Company may from time to time by Special Resolution reduce its share capital, any capital redemption reserve fund and any share premium account in any manner authorised by law. The Company may also by Ordinary Resolution cancel any shares not taken or agreed to be taken by any person and diminish the amount of its share capital by the nominal value of the shares so cancelled.

G. Directors

Unless and until otherwise determined by the Company in General Meeting the number of Directors shall not be less than two nor more than ten. The continuing Directors may act notwithstanding any vacancy in their body, provided that if the number of the Directors be less than the prescribed minimum the remaining Director or Directors shall forthwith appoint an additional Director or Directors to make up such minimum or shall convene a general meeting of the Company for the purpose of making such appointment. If there is no Director or are no Directors able or willing to act then any two holders may summon a general meeting for the purpose of appointing Directors.

At the next Annual General Meeting following a Director's first appointment such Director shall retire from office and may stand for re-election.

The Directors shall be paid out of the funds of the Company by way of fees for their services an aggregate sum not exceeding £1,000,000 per annum. The Directors shall be entitled to be repaid all reasonable travelling, hotel and other expenses incurred by them respectively in or about the performance of their duties.

H. Meetings of Directors

The Directors may meet together in person or for the dispatch of business, adjourn and otherwise regulate their meetings as they think fit, and determine the quorum necessary for the transaction of business. Until otherwise determined two Directors shall constitute a quorum. Questions arising at any meeting shall be determined by a majority of votes. In case of any equality of votes the Chairman shall have a second or casting vote.

I. Directors' Interests

The Board may, provided the quorum and voting requirements are satisfied, authorise any matter that would otherwise involve a Director breaching his duty under the Companies Act 2006 to avoid conflicts of interest. Where the Board gives authority in relation to such a conflict, it may impose terms upon the Director concerned including, without limitation, the exclusion of that Director from the receipt of information, or participation in discussion (whether at meetings of the Board or otherwise) related to the conflict and the Director concerned and any other Director with a similar interest will be obliged to conduct himself in accordance with any terms imposed by the Board from time to time.

J. General Meetings

Annual general meetings shall be held at such time and place as may be determined by the Directors and within a period of six months beginning on the day following the Company's accounting reference date.

An annual general meeting and a general meeting called for the passing of a special resolution and/or ordinary resolution shall be called by not less than twenty-one days' notice in writing, and all other general meetings of the Company shall be called by not less than fourteen days' notice in writing unless it is proposed to pass a resolution of which special notice is required by law, in which case 28 days' notice is required.

The quorum for a general meeting shall not be less than two Shareholders present in person or by proxy. If within half an hour from the time appointed for the meeting a quorum is not present, the meeting, if convened by or upon the requisition of Shareholders, shall be dissolved. In any other case it shall stand adjourned to such time (being not less than fourteen days and not more than twenty eight days hence) and at such place as the Chairman shall appoint. At any such adjourned meeting the Shareholder or Shareholders present in person or by proxy and entitled to vote shall have power to decide upon all matters which could properly have been disposed of at the meeting from which the adjournment took place.

K. Borrowing Powers

The Directors may exercise all the powers of the Company to borrow money and to mortgage or charge its undertaking property and uncalled capital, or any part thereof and to issue debentures and other securities. The Directors shall restrict the borrowings of the Company so that the aggregate amount at any one time owing by the Company shall not at any time without the previous sanction of the Company in general meeting exceed the greater of the sum of ten per cent of the aggregate of the paid up share capital of the Company and the amount standing to the credit of the consolidated reserves of the Company and its subsidiaries whether distributable or undistributable and including (without limitation) share premium account, capital redemption reserve and profit and loss account.

TERMS & CONDITIONS OF APPLICATION

1. The right is reserved to reject any Application in whole or in part or to accept any Application in whole or in part. 2. By completing and delivering an Application Form, you:
 - (a) irrevocably offer to subscribe the amount of money specified in your Application Form or such lesser amount as is accepted (in each case such amount being referred to as the "Application Amount") which shall be applied to purchase New Ordinary Shares on the basis of the Pricing Formula set out on page 38 of the Prospectus and subject to the provisions of the Prospectus, these Terms and Conditions and the Articles. Applicants for New Ordinary Shares for whom Application Forms are received and accepted by the Company prior to 4.00p.m. on 31 January 2017 will be charged a reduced Promoter's Fee of 1.0% and those whose Application Forms are received and accepted by the Company prior to 4.00p.m. on 28 February 2017 will be charged a reduced Promoter's Fee of 1.5% and will, therefore, receive additional New Ordinary Shares to their usual entitlement through the operation of the Pricing Formula.

3. No person receiving a copy of this document or an Application Form in any territory other than the United Kingdom may treat the same as constituting an invitation or offer to him or her, nor should he or she in any event use such Application Form unless, in the relevant territory, such an invitation or offer could lawfully be made to him or her or such Application Form could lawfully be used without contravention of any registration or other legal requirements. It is the responsibility of any person outside the United Kingdom wishing to make an application thereunder to satisfy himself or herself as to the full observance of the laws of any relevant territory in connection therewith, including obtaining any requisite governmental or other consents, observing any of the formalities requiring to be observed in such territory and paying any issue, transfer or other taxes required to be paid in such territory.
4. The New Ordinary Shares have not been and will not be registered under the United States Securities Act 1933, as amended, or under the securities laws of any state or other political subdivision of the United States, and may not be offered or sold in the United States of America, its territories or possessions or other areas subject to its jurisdiction (the "USA"). In addition, the Company has not been and will not be registered under the United States Investment Company Act of 1940, as amended. No Application will be accepted if it bears an address in the USA.
5. This Application is addressed to the Company. The rights and remedies of the Company and the Manager under these Terms and Conditions of Application are in addition to any rights and remedies which would otherwise be available to either of them, and the exercise or partial exercise of one will not prevent the exercise of others.
6. The dates and times referred to in these Terms and Conditions of Application may be altered by the Company. In particular, the Directors may close the Offer early at their sole discretion.
7. Authorised financial intermediaries who have given you a personal recommendation in respect of your application having first categorised you as a Professional Client, or who acting on behalf of their clients return valid Application Forms in respect of execution-only transactions (in each case bearing their stamp and FCA number) will be entitled to commission on the amount payable in respect of the New Ordinary Shares allocated for each such Application Form at the rates specified in the paragraph "Terms of the Offer" in Part 4 (Information relating to the Offer) of this document. Authorised financial advisers may agree to waive part or all of their initial commission in respect of an Application. If this is the case, then the Application Amount will be increased by an amount equivalent to the amount of commission waived. Financial intermediaries should keep a record of Application Forms submitted bearing their stamp to substantiate any claim for their commission. No commission is payable on reinvested commission or on any additional allocation received under the Early Investment Incentive arrangements described above. In addition, provided they continue to act for their client and the client continues to hold such New Ordinary Shares, such intermediaries will usually be paid an annual trail commission of 0.25% of the gross subscription (excluding any Adviser Charge) for a maximum of five years. Annual trail commissions will be paid in October (commencing in October 2017) by the Company.
8. In respect of Applications received on behalf of Professional Clients Applicants or pursuant to execution-only transactions, commission (but not annual trail commission) will be taken into account when calculating, and will reduce, the number of New Ordinary Shares which are to be issued on the basis of the Pricing Formula set out on page 38 of the Prospectus.
9. Where Application Forms are returned on your behalf by an authorised financial intermediary who has given you a personal recommendation in respect of your application having first categorised you as a Retail Client, the Company will facilitate the payment of any up-front Adviser Charge agreed between you and your intermediary, as validated by your completion of Box 3 on the Application Form. The amount of the agreed Adviser Charge will be facilitated by the Company making a payment equal to the agreed up-front Adviser Charge direct to the intermediary which will be taken into account when calculating, and will reduce, the number of New Ordinary Shares which are issued to you on the basis of the relevant Pricing Formula set out on page 38 of the Prospectus. The Applicant will be issued fewer New Ordinary Shares to the equivalent value of the Adviser Charge. The Adviser Charge is inclusive of VAT, where applicable.
10. If you have agreed to pay on-going charges to an intermediary who has categorised you as a Retail Client in respect of services related to your investment, for example, for conducting associated administrative tasks or managing your relationship with the Company, then the Company will not facilitate the payment of any such on-going adviser charge.
11. The section headed Application Procedure below forms part of these Terms and Conditions of Application.

12. It is a condition of the Offer that compliance with the Money Laundering Regulations 2007 is ensured. The City Partnership (UK) Ltd is therefore entitled to require, at its absolute discretion, verification of identity from any Applicant including, without limitation, any person who either (i) tenders payment by way of a cheque or banker's draft drawn on an account in the name of a person or persons other than the Applicant or (ii) appears to The City Partnership (UK) Ltd to be acting on behalf of some other person. Pending the provision of evidence satisfactory to The City Partnership (UK) Ltd as to the identity of the Applicant and/or any person on whose behalf the Applicant appears to be acting, The City Partnership (UK) Ltd may, in its absolute discretion, retain an Application Form lodged by an Applicant and/or the cheque or other remittance relating thereto and/or The City Partnership (UK) Ltd may not enter the Applicant on the register of members of the Company or issue any share certificates in respect of such Application. If verification of identity is required, this may result in delay in dealing with an Application and in rejection of the Application. The Company reserves the right, in its absolute discretion, for it or The City Partnership (UK) Ltd to reject any Application in respect of which The City Partnership (UK) Ltd considers that, having requested verification of identity, it has not received evidence of such identity satisfactory to it by such time as was specified in the request for verification of identity or in any event within a reasonable period. In the event of an Application being rejected in any such circumstances, the Company reserves the right in its absolute discretion, but shall have no obligation, to terminate any contract of allotment relating to or constituted by such Application Form (in which event the money payable or paid in respect of the Application will be returned (without interest) to the account of the drawee bank from which such sums were originally debited) and/or to endeavour to procure other subscribers for the Shares in question (but in each case without prejudice to any rights the Company may have to take proceedings to recover in respect of loss or damage suffered or incurred by it as a result of the failure to produce satisfactory evidence as aforesaid). The submission of an Application Form will constitute an undertaking by the Applicant to provide promptly to The City Partnership (UK) Ltd such information as may be specified by it as being required for the purpose of the Money Laundering Regulations 2007.
13. The right is also reserved to treat as valid any application not complying fully with these Terms and Conditions of Application for the Offer or not in all respects complying with the Application Procedure. In particular, but without limitation, the Company may accept Applications made otherwise than by completion of an Application Form where the Applicant has agreed in some other manner acceptable to the Company to apply in accordance with these Terms and Conditions of Application.
