

Role profile

JOB TITLE

Frontend Web Developer

ROLE SUMMARY

Do you have a passion for developing exceptional, market-leading web content, tools and interfaces? Do you enjoy solving challenges using HTML, CSS and Javascript? Are you ready to take the next step in your career?

If that sounds like you, this is your opportunity to join one of the fastest-growing and most profitable companies listed on the FTSE 100 in the UK.

Based in Bristol, last year we attracted more than 58 million visits to our website. At the forefront of this is our best-in-class website containing pioneering tools and features and our iPad, iPhone and Android applications.

We are looking for a talented and ambitious frontend web developer to join our expanding Digital Marketing team. The role will give the best candidate the opportunity to learn from and become a key member of our existing frontend development team.

Working with cutting-edge HTML 5, CSS 3 and JQuery, you will assist the digital marketing, design and project teams as well as deliver exciting projects of your own. You will be given the platform on which to build your career and genuinely stamp your mark on the future of one of the UK's most innovative and digitally-focused businesses.

We're looking for talent, enthusiasm and the drive to succeed. In this role you will be given the opportunity and support to learn and develop skills in many of the leading, industry-standard digital marketing tools and software packages.

DEPARTMENT

Digital Marketing

REPORTING TO

Head of Digital & Mobile Projects

SALARY

£24,000 - £30,000

Plus discretionary annual bonus

LOCATION

Bristol Harbourside

HOURS

Mon – Fri, 8:30am – 5pm

KEY DUTIES AND RESPONSIBILITIES

- Develop market-leading pages, tools and interfaces.
- Write well-structured HTML, CSS and Javascript (JQuery) to deliver exceptional products.
- Support the Digital team to deliver improvements to key touch points across web and mobile platforms.
- Implement and test measurable developments and be able to show how they deliver tangible benefits to the business.
- Take ownership of your work and be able to work across various projects simultaneously, while always maintaining an eye for detail and ensuring deadlines are met.
- Assist in-house PHP development team in delivering complex client features to the website.

ESSENTIAL QUALIFICATIONS AND ATTRIBUTES

- Educated to AS / A Level or equivalent.
- Solid knowledge of HTML 5 and CSS 3.
- Experience using Javascript and JQuery.
- Strong understanding of user experience.
- Exceptional attention to detail.
- Ability to work in a team and alone.
- Ability to effectively manage multiple projects simultaneously and perform under pressure.
- Highly organised and reliable.
- Driven to exceed expectations and deliver consistently exceptional work.
- Genuine interest in the web, mobile and technology.

DESIRABLE QUALIFICATIONS AND ATTRIBUTES

- Educated to degree level, preferably in a development subject or with development modules.
- Knowledge of JQuery libraries for mobile.
- Experience developing for mobile platforms.
- Experience developing responsive websites.
- Ability to respond positively to constructive criticism.
