B34 Investment policy

#### Proposed investment policy as set out in the circular dated 8 December 2016

#### **Asset allocation**

It is intended that at least 70% of each share pools' funds are invested in VCT Qualifying Investments within 3 years of the close of the relevant share offer. The remainder of the funds will be held in Non-Qualifying Investments.

For share pools designated as having a "planned exit" strategy, following the fifth anniversary of the last share allotment, the Company will seek realisations of its investments such that funds can be returned to Shareholders.

#### **VCT Qualifying Investments**

New VCT Qualifying Investments will normally comprise investments in businesses that are less than 7 years old and require funding to support the growth of the business. Investments may be in a range of sectors which are allowable under the VCT Regulations.

The Company will focus on development and expansion funding for unquoted businesses and will not usually undertake very early stage or start up investments.

Specific share pools may have a generalist focus or may focus on certain sectors according to the strategy of that specific share pool.

VCT Qualifying Investments made in 2015 and earlier were made under previous VCT Regulations and focused on investments in UK businesses that own substantial assets (over which a charge could be taken by the Company) or have predictable revenue streams from financially sound customers.

#### **Non-Qualifying Investments**

The funds not employed in VCT Qualifying Investments will be invested in Non Qualifying Investments as allowed by the VCT Regulations. These will typically be cash deposits and investments in quoted securities, investment trusts or OEICs.

Non-Qualifying Investments made prior to 5 April 2016 were typically made in structured products and secured loans.

#### Risk diversification

The Directors control the overall risk of the Company. Downing ensures that, for each share pool, the Company has exposure to a diversified range of VCT Investments from different sectors and adheres to the holding limit that no investment in a company may represent more than 15% by value of the Company's total investments at the time of investment

#### **Listing Rules**

As a company whose shares have been admitted to the Official List, the Company conducts its business in accordance with the Listing Rules.

#### **Venture Capital Trust Regulations**

In continuing to maintain its VCT status, the Company complies with a number of regulations as set out in Part 6 of the Income Tax Act 2007.

#### **Borrowing policy**

It is not the Company's intention to have any borrowings, but it reserves the right to should the need arise. The Company does, however, have the ability to borrow a maximum amount equal to 15% of the aggregate amount paid on any shares issued by the Company (together with any share premium thereon).

#### **Trading Activity**

The Company does not carry out any trading activity which is significant in the context of the Company.

## B35 Borrowing limits

The Company's Articles permit borrowing up to a sum equal to no more than 15% of the amount paid up on the Company's issued shares. Based on the latest audited accounts for the year ended 31 March 2016, this figure would be £6.8 million. The Board currently has no intention to use borrowing, but reserves the right to should the need arise. The

Company has had no borrowings to date.

# B36 Regulatory status

The Company is subject to the Act and the regulations made thereunder and UK law generally; its shares are listed on the premium segment of the Official List and, as a qualifying VCT, it is subject to regulation by HMRC in order to retain such status.

### B37 Typical investor

A typical investor in the Company will be a UK higher-rate income tax payer, over 18 years of age and with an investment range of between £3,000 and £200,000 who is capable of understanding and is comfortable with the risks of VCT investment.

# B38 Investment of 20% or more in a single company

Not applicable. The Company does not and will not hold any investments which represent more than 20% of its gross assets in a single company or group.

# B39 Investment of 40% or more in a single company

Not applicable. The Company does not and will not hold any investments which represent more than 40% of its gross assets in a single company or group.

## B40 Service providers

Downing acts as the investment manager to the Company and receives an annual fee of 1.5% of the net assets of the DSO B Shares and DSO D Shares per annum, 1.8% of the net assets of the DP2011 General Shares, DP2011 Structured and DP2011 Low Carbon Shares per annum, 1.35% of the net assets of the DP67 Shares per annum, 2.5% of the net assets of the Healthcare Shares and 2.0% of the Generalist Shares.

In respect of administration fees, Downing is paid a formula based fee comprising three elements: (i) a basic fee of £40,000; (ii) a fee of 0.1% per annum on funds in excess of £10 million; (iii) £5,000 per additional share pool.

Performance incentives for the DSO Ordinary, DSO B Share, DP2011 General and DP2011 Structured shares pools are payable to management under a mechanism triggered by the A and C Share classes. In the year to 31 March 2016 DSO A Share dividends totalling £804,000 were payable to management following the DSO Ordinary Share dividends reaching the necessary hurdles. A performance incentive fee is payable in respect of the DSO D Shares. No performance incentive scheme is in place in respect of the DP67 Share pool.

In respect of the Generalist Shares and Healthcare Shares, a performance incentive scheme will be in place utilising the Management Shares, which will represent 20% of the total number of Generalist and Healthcare Shares in issue. As part of the arrangement, in order to prevent dilution to the shareholders of the Generalist and Healthcare Shares, the management team will waive their voting rights granted by these Management Shares at any general meeting of the Company and income or capital distributions otherwise payable on these Management Shares will be waived unless the share class has achieved a Total Return (based on audited year end results) in excess of £1 per share for the years ended 31 March 2018, 31 March 2019 and 31 March 2020. For subsequent years the Total Return hurdle increases by 3p per annum such that for the year ended 31 March 2021 the hurdle is £1.06 etc.

If the Hurdle is met, the Management Shares will receive dividends equal to 20% of the total dividends paid for the relevant year on that share class.

C5 Restrictions on the free transferability of the securities

There are no restrictions on the free transferability of the Generalist Shares and Healthcare Shares.

C6 Admission Application will be made to the UKLA for the Generalist Shares and Healthcare Shares to be listed on the premium segment of the Official List and will be made to the London Stock Exchange for such shares to be admitted to trading on its main market for listed securities. It is anticipated that dealings in the Generalist Shares and Healthcare Shares will commence three Business Days following allotment.

C7 Dividend policy The Board's policy is to whenever possible maintain a steady flow of tax-free dividends, generated from income or capital profits realised on the sale of investments. The level of dividends is not guaranteed. The Company intends to adopt a strong dividend policy, where possible distributing between 4% and 5% of its net assets each year as dividends. In practice, it is unlikely that any dividends will be paid within the first three years of the Offer. In accordance with the VCT rules, such distributions will not be made out of capital or cancelled share premium which is less than three years old.

D

D2 Key information on the risks specific to the issuer

#### **Risks**

The Company

- There can be no assurances that the Company will meet its objectives, identify suitable investment opportunities or be able to diversify its portfolio. The past performance of Downing and other funds managed or advised by Downing is no guide to future performance and the value of an investment in the Company. The Shares may fall as well as rise and an investor may not receive back the full amount invested.
- There can be no guarantee that the Company will retain its status as a VCT, the loss of which could lead to adverse tax consequences for investors, including a requirement to repay the 30% income tax relief.
- The tax rules, or their interpretation, in relation to an investment in the Company and/or the rates of tax may change during the life of the Company and may apply retrospectively which could affect tax reliefs obtained by Shareholders and the VCT status of the Company.
- Investments made by the Company will be in companies which have a higher risk profile than larger "blue chip" companies and whose securities are not readily marketable and therefore may be difficult to realise.
- Although the Company may receive customary venture capital rights in connection with its investments, as a minority investor it may not be in a position to protect its interests fully.
- The Company's investments may be difficult, and take time, to realise. There may also be constraints imposed on the realisation of investments

in order to maintain the VCT tax status of the Company which may restrict the Company's ability to obtain maximum value from its investments.

- D3 Key information on the risks specific to the securities
- The value of Generalist Shares and/or Healthcare Shares may fall below the original amount invested, its market price may not fully reflect the underlying Net Asset Value and dividends may not be paid. Investment in the Company should be viewed as a long-term investment.
- If a qualifying investor disposes of his or her shares within five years of issue, he or she will be subject to clawback by HMRC of any income tax reliefs originally claimed.
- Although the Company's Existing Shares have been (and it is anticipated that the Offer Shares will be) admitted to the Official List of the UKLA and to trading on the London Stock exchange's market for listed securities, there may not be a liquid market and investors may find it difficult to realise their investments.

Offers

E1 Net proceeds and costs of the issue

Ε

The maximum costs and expenses relating to the Offers, assuming full subscription by Execution-only Investors, are 4% or £1,200,000. The total net proceeds of the Offers, on the above assumptions and after all fees and including the Management Shares, are expected to be £28,800,000.

E2a Reason for the Offers and use of proceeds

The Board believes that the current economic climate will continue to create opportunities for those investors able to take a medium to long term view to invest in well managed UK businesses that need capital to expand but are facing a shortage of finance, resulting in higher portfolio returns. The additional funds raised under the Offers will enable the Company to increase the pace of its investment activity and both the number and size of its investments in the future and will finance running costs. By raising more capital the running costs per Share in the Company will be reduced as the fixed costs are spread over a larger asset base.

The Company will use the net proceeds of the Offers, expected to be £28,800,000 on the above assumptions, to invest predominantly in unquoted companies, in line with the Company's investment policy.

E3 Terms and conditions of the Offer

Up to 20,000,000 Generalist Shares and 10,000,000 Healthcare Shares in the Company are offered at the Offer Price under the Offers, payable in full upon application. If the Offers are oversubscribed, they may be increased at the discretion of the Board up to a maximum of 30,000,000 Generalist Shares and 20,000,000 Healthcare Shares, in aggregate.

#### **Adviser Charges, Pricing of the Offers and Commission**

Commission is not permitted to be paid to Intermediaries who provide a personal recommendation to UK retail clients on investments in VCTs after 30 December 2012. Instead of commission being paid by the VCT, a fee will usually be agreed between the Intermediaries and Investor for the advice ("Adviser Charge"). This fee can either be paid directly by the Investor to the Intermediary or, if it is an initial one-off fee, the payment of such fee may be facilitated by the Company. Ongoing fees will not be facilitated by the Company. If the payment of the Adviser Charge is to be facilitated by the Company, then the Investor is required to specify the amount of the charge on the Application Form (see Box 4). The Investor will be issued fewer Generalist Shares and/or Healthcare Shares (to the equivalent value of the Adviser Charge) through the Pricing Formula set out below.

Commission is permitted to be paid to Intermediaries in certain limited situations, such as in respect of execution only clients (where no advice or personal recommendation has been provided). The level of the Promoter's Fee

reflects whether or not commission is payable.

#### Promoter's Fee (no Adviser commission payable)

Downing will charge a Promoter's Fee of 2% of the monies subscribed, where it is not required to pay commission to an Intermediary.

#### Promoter's Fee (Adviser commission payable)

Downing will charge a Promoter's Fee of 4% of the monies subscribed, where it is required to pay commission to an Intermediary.

Out of its Promoter's Fees, Downing (not the Investor) will be responsible for paying all the costs of the Offers, including initial commission to Intermediaries (where applicable).

#### **Pricing of the Offers**

The number of Offer Shares to be issued to each Applicant will be calculated based on the following Pricing Formula (rounded down to the nearest whole Share):

Number of Generalist/Healthcare Shares = Amount subscribed less

(i) Promoter's Fee and (ii) Adviser Charge ÷ Latest NAV per Generalist/Healthcare Share

E4 Material interests Not applicable. No interest is material to the Offers.

Name of person selling Not applicable. No entity is selling securities in the Company. securities

E6 Dilution Not Applicable. New share classes.

E7 Expenses charged to the investor

#### Applications received through execution only brokers and intermediaries

The expenses charged to the Investor under the Offers are 4% of gross funds raised for the Company in respect of applications received through execution only brokers or intermediaries not offering financial advice (save for permissible trail commission which the Company will be responsible for).

# Applications received directly from Applicants and through intermediaries offering financial advice

The expenses charged to the Investor under the Offers are 2% of gross funds raised for the Company in respect of applications received directly from Applicants and through intermediaries offering financial advice.

#### **Risk Factors**

Investors should consider carefully the following risk factors in addition to the other information presented in the Prospectus. If any of the risks described below were to occur, it could have a material effect on the Company's businesses, financial condition or results of operations. The risks and uncertainties described below are not the only ones the Company, the Board or current and prospective Shareholders will face. Additional risks not currently known to the Company or the Board, or that the Company or the Board currently believe are not material, may also adversely affect the Company's businesses, financial condition and results of operations. The value of Shares could decline due to any of these risk factors, and investors could lose part or all of their investment. Investors who are in any doubt about what to do should consult their independent financial adviser. The attention of prospective investors is drawn to the following risks:

#### Valuation and sale of Shares

The value of the Shares and the income from them can fluctuate and investors may not get back the amount they invested. In addition, there is no certainty that the market price of the Shares will fully reflect the underlying Net Asset Value or that Shareholders will be able to realise their shareholding or that dividends will be paid. Generalist Shareholders and/or Healthcare Shareholders should be aware that the sale of Generalist and/or Healthcare Shares within five years of their subscription will require the repayment of some or all of the 30% VCT income tax relief obtained upon investment. Accordingly, an investment in the Company is not suitable as a short or medium term investment. The past performance of the Company or of other funds managed or advised by Downing, the investment manager to the Company, is not necessarily an indication of the future performance of the Company.

#### 6 month rule

Shareholders should note that if they have sold, or if they sell, any shares in the Company within 6 months either side of the subscription for the Generalist Shares and/or Healthcare Shares, then for the purposes of calculating the tax relief on the Generalist and/or Healthcare Shares the subscribed amount must be reduced by the amount received from the sale.

#### Value of underlying assets

The Net Asset Value of the Shares will reflect the values and performance of the underlying assets in the respective portfolios. The value of the investments and income derived from them can rise and fall. Realisation of investments in small unquoted companies can be difficult and may take considerable time.

#### VCT Rules and the impact on the portfolio

There may also be constraints imposed on the realisation of investments in order to maintain the VCT status of investee companies which may restrict the Company's ability to obtain maximum value from its investments or to achieve the intended timing of distributions. To be qualifying holdings, VCT funds must be invested in smaller companies with gross assets of not more than £15 million prior to the investment and £16 million post investment. In addition, to be qualifying holdings, VCT funds must be invested in companies which have no more than 250 full time (equivalent) employees and do not receive more than £5 million of investment from state aided risk capital sources in the 12 months ending on the date of the VCT's investment.

#### **Investment opportunities**

There can be no guarantee that suitable investment opportunities will be identified in order to meet the Company's objectives.

#### Minority interest

Although the Company may receive conventional venture capital rights in connection with its investments, as a minority investor they may not be in a position fully to protect its interests.

#### Nature of smaller companies

Investment in smaller and unquoted companies involves a higher degree of risk than investment in larger companies and those traded on the main market of the London Stock Exchange. Smaller companies generally may have limited product lines, markets or financial resources and may be more dependent on their management or key individuals than larger companies. Markets for smaller companies' securities may be less regulated and are often less liquid, and this may cause difficulties in valuing and disposing of equity investments in such companies.

#### Liquidity

Although the Generalist and Healthcare Shares will be Listed, it is highly unlikely that a liquid market in the Shares will develop as the initial VCT income tax relief is only available to those subscribing for new shares and there may never be two competitive market makers. It may, therefore, prove difficult for Generalist Shareholders and/or Healthcare Shareholders to sell their Shares. In addition, there is no guarantee that the market price of the Shares will fully reflect their underlying NAV or the ability to buy and sell at that price. It should be noted that shares held in VCTs usually trade at a discount to the VCT's net asset value. If the Company lacks sufficient cash reserves to purchase its own Shares and during prohibited periods when the Company is unable to purchase its own Shares, the market price of Shares may not fully reflect, and will tend to be at a discount to, their underlying NAV. However, the Board intends to buyback Generalist and Healthcare Shares in the Company at a nil discount to NAV, subject to liquidity and cash resources, which should help to reduce the share discount price.

#### **VCT** legislation

The information, including tax rules, contained in this document is based on existing legislation. The tax rules or their interpretation in relation to an investment in the Company and/or the rates of tax, or other statutory provisions to which the Company is subject, may change during the life of the Company and such changes could be retrospective.

Whilst it is the intention of the Directors that the Company will be managed so as to continue to qualify as a venture capital trust, there can be no guarantee that this status will be maintained. A failure to meet the qualifying requirements could result in the loss of tax reliefs previously obtained, resulting in adverse tax consequences for investors, including a requirement to repay the income tax relief obtained, and could also cause a Company to lose its exemption from corporation tax on capital gains.

#### **Recent changes to VCT legislation**

The Finance Act 2014 amended the VCT rules, such that VCT status will be withdrawn if, in respect of shares issued on or after 6 April 2014, a dividend is paid (or other forms of distribution or payments are made to investors) from the capital received by the VCT from that issue within three years of the end of the accounting period in which shares were issued to investors. This may reduce the amount of distributable reserves available to the Company to fund dividends and share buybacks.

The Finance (No.2) Act 2015 introduced changes to the VCT Rules which have placed greater restrictions on the range of investments into which the Company can deploy funds. As a result the Company is required to invest in businesses which are less than seven years old (less than 10 years for 'knowledge intensive' companies) and VCT funds cannot be used to finance acquisitions by investee companies. The penalty for breaching these new rules is the loss of VCT status, so the Company and its investors may face a higher risk of the loss of tax benefits than under the previous rules. Qualifying investee companies are also now subject to a lifetime risk finance investment limit of £12 million (£20 million for 'knowledge intensive' companies), which may restrict the Company's ability to make follow on investments.

Where the European Commission believes that state aid has been provided which is not in accordance with the risk finance guidelines, it may require the UK government to recover that state aid. There is currently no mechanism in place for this, but recovery may be from the investee company, the VCT or the VCT's investors.

#### Forward-Looking Statements

You should not place undue reliance on forward-looking statements. This Prospectus includes statements that are (or may be deemed to be) "forward-looking statements", which can be identified by the use of forward-looking terminology including the terms "believes", "continues", "expects", "intends", "may", "will", "would", "should" or, in each case, their negative or other variations or comparable terminology. These forward-looking statements include all matters that are not historical facts. Forward-looking statements involve risk and uncertainty because they relate to future events and circumstances. Forward-looking statements contained in this Prospectus or based on past trends or activities, should not be taken as a representation that such trends or activities will continue in the future. Any such statements do not, nor are intended to qualify the Company's working capital statement.

The information contained in this document will be updated if required by the Prospectus Rules, the Listing Rules and the Disclosure and Transparency Rules, as appropriate.

#### Part I - The Offers

#### Introduction

VCTs were introduced in 1995 to encourage individuals to invest indirectly in a range of small higher risk UK trading companies. VCTs are investment companies whose shares are listed on the Official List and traded on the London Stock Exchange. To date, over £5 billion has been raised by over 100 VCTs (*source: HM Revenue & Customs*).

The Company, Downing FOUR VCT plc, was created by the merger of four VCTs managed or advised by Downing in July 2015. It is a large VCT which at that time had net assets of approximately £60 million. It now has an existing portfolio of approximately 45 investments. The Company's Board has a considerable number of years of experience in private equity and venture capital.

The Company's initial public share offer raised gross aggregate proceeds of £10.5 million during 2009. The investments in the DSO Ordinary Share pool were all sold and the net proceeds distributed to DSO Ordinary Shareholders, with the majority of funds returned during 2015 and 2016. DSO Ordinary Shareholders received total distributions of 131.66p for a pair of one DSO Ordinary Share and one DSO A Share, equating to a tax-free return, calculated as an IRR, of 12% per annum. Having returned all funds to shareholders, the Company has now cancelled the DSO Ordinary and DSO A Shares.

Two further share offers have since been undertaken, followed by the Merger in 2015, which brought an additional four share pools into the Company; the DSO B, DSO D, DP2011 and DP67. The DSO B Share pool has begun to realise its investments and return funds to investors. The DP2011 pools (General, Structured and Low Carbon) have now also passed their five year anniversaries and commenced the process of realising their respective portfolios. As at 30 September 2016, the DSO B, DSO D, DP67, DP2011 General, DP2011 Structured and DP2011 Low Carbon Share pools of the Company held investments in 35 companies with a total unaudited value of £26.8 million.

#### **Reasons for the Offers**

As each of the Company's existing share pools operates a 'planned exit' strategy, over time the Company is currently expected to reduce in size. The Offers will increase the size of the Company, allowing all Shareholders to benefit from being able to spread the burden of fixed VCT running costs over a greater asset base.

The Offers have been designed for Investors seeking a portfolio of unquoted investments, whilst taking advantage of the VCT tax reliefs. The Company is seeking to raise additional gross proceeds of approximately £30 million across the two new share class under the Offers, together with an over-allotment facility in each class of up to approximately a further net £10 million.

#### The Generalist Shares and Healthcare Shares

In contrast to the existing share classes which operate under a planned exit strategy, the Generalist Shares and Healthcare Shares will be 'evergreen' with a focus on longer term returns to shareholders and ongoing tax-free dividends.

The existing investments and cash attributable to the Existing Shares will be kept separate from the proceeds of the issue of the Generalist Shares and Healthcare Shares, which will be administered as separate investment pools.

The holders of Generalist Shares or Healthcare Shares will have the right to participate (by way of dividends and return of capital) in those assets attributable to the Generalist Shares or Healthcare Shares (as applicable), but not in those assets attributable to the Existing Shares. Conversely, the holders of Existing Shares will have the right to participate (by way of dividends and return of capital) in the assets attributable to the Existing Shares (as applicable) but not in those assets attributable to the Generalist Shares or Healthcare Shares.

No convertible securities, exchangeable securities or securities with warrants will be issued with this Offer.

#### **Dividends**

The Board has a stated objective for the Generalist and Healthcare Share pools of paying an annual tax-free dividend from the fourth year onwards of at least 4% of each pool's respective NAV, subject to the availability of sufficient distributable profits, capital resources and compliance with the VCT regulations. There is no guarantee that this objective will be met.

Dividends that are paid during the lifetime of the shares will be subject to the VCT regulations introduced in 2014 which place restrictions on dividends payable by VCTs in the three year period beginning at the end of the accounting period in which the shares are issued. The level of any dividends will be dependent on the performance of the investments in the Generalist Share pool/Healthcare Share pool. In practice, it is unlikely that any dividends will be paid in respect of the Generalist Shares or Healthcare Shares in the first three years of their life.

There are currently no plans to offer a dividend reinvestment scheme, however, the Directors will review this policy from time to time, and consider introducing such a scheme if appropriate.

#### Taxation Benefits to Investors (see Part IV for further details)

The principal VCT tax reliefs, which are available on a maximum investment of £200,000 per individual in each of the 2016/17 and 2017/18 tax years, are set out below:

- Income tax relief at 30% of the amount subscribed provided the VCT shares are held for at least five years and provided the Investor has not sold any shares in the Company six months either side of the issue of the new shares. Relief is restricted to the amount which reduces the Investor's income tax liability to nil.
- Tax-free dividends and capital distributions from a VCT.
- Capital gains tax exemption on any gains arising on the disposal of VCT shares.

The table below shows the effect of the initial income tax relief using an assumed investment of £10,000.

Effect of initial 30% income tax relief	
Cost of investment	£
Gross subscription by Investor	10,000
30% income tax relief	(3,000)
Net of tax cost of investment	7,000
Initial value of investment	
Gross subscription by Investor	10,000
Assumed issue costs of 2%	(200)
Initial Net Asset Value ("NAV")	9,800
1.11.1 (()11.0 (c)	. 52 000
Initial "uplift" (£)	+£2,800
Initial "uplift" (%)	+40.00%

The above table shows that, based on an illustrative investment of £10,000 and income tax relief at 30%, an Investor's net of tax cost of investment is £7,000 and the net assets initially attributable to the investment are £9,800, an "uplift" of £2,800 or +40.0%. The table ignores the effect of Adviser Charges paid or early application discounts received. Investors should note that they are required to hold the Shares for at least five years in order to retain the full amount of income tax relief and, as such, this initial uplift cannot be immediately realised.

This is only a very brief summary of the UK tax position of investors in VCTs, based on the Company's understanding of current law and practice. Further details are set out in Part IV of this document. Prospective Investors are recommended to consult their own appropriate professional advisers as to the taxation consequences of their investing in a VCT. In addition, the availability of tax reliefs depends on the Company maintaining its VCT qualifying status.

#### **Investment Policy**

A new investment policy has been drawn up in order to accommodate the new share classes and changes to the VCT legislation. As these changes, taken together, are considered by the Company to be material, the new policy will be proposed for approval by Shareholders at the General Meeting to take place on 16 January 2017, and, if approved, will be as set out below. If the resolution to amend the policy is not approved, the Company will continue with its existing investment policy, as most recently published in the Company's annual report and accounts for the year ended 31 March 2016, but will only make investments which remain nonetheless consistent with the VCT Regulations.

#### Asset allocation

It is intended that at least 70% of each share pools' funds are invested in VCT Qualifying Investments within 3 years of the close of the relevant share offer. The remainder of the funds will be held in Non-Qualifying Investments.

For share pools designated as having a "planned exit" strategy, following the fifth anniversary of the last share allotment, the Company will seek realisations of its investments such that funds can be returned to Shareholders.

#### **VCT Qualifying Investments**

New VCT Qualifying Investments will normally comprise investments in businesses that are less than 7 years old and require funding to support the growth of the business. Investments may be in a range of sectors which are allowable under the VCT Regulations.

The Company will focus on development and expansion funding for unquoted businesses and will not usually undertake very early stage or start up investments.

Specific share pools may have a generalist focus or may focus on certain sectors according to the strategy of that specific share pool.

VCT Qualifying Investments made in 2015 and earlier were made under previous VCT Regulations and focused on investments in UK businesses that own substantial assets (over which a charge could be taken by the Company) or have predictable revenue streams from financially sound customers.

#### **Non-Qualifying Investments**

The funds not employed in VCT Qualifying Investments will be invested in Non Qualifying Investments as allowed by the VCT Regulations. These will typically be cash deposits and investments in quoted securities, investment trusts or OEICs.

Non-Qualifying Investments made prior to 5 April 2016 were typically made in structured products and secured loans.

#### Risk diversification

The Directors control the overall risk of the Company. Downing ensures that, for each share pool, the Company has exposure to a diversified range of VCT Investments from different sectors and adheres to the holding limit that no investment in a company may represent more than 15% by value of the Company's total investments at the time of investment

#### **Listing Rules**

As a company whose shares have been admitted to the Official List, the Company conducts its business in accordance with the Listing Rules.

#### Venture Capital Trust Regulations

In continuing to maintain its VCT status, the Company complies with a number of regulations as set out in Part 6 of the Income Tax Act 2007.

#### **Borrowing policy**

It is not the Company's intention to have any borrowings, but it reserves the right to should the need arise. The Company does, however, have the ability to borrow a maximum amount equal to 15% of the aggregate amount paid on any shares issued by the Company (together with any share premium thereon).

#### **Trading Activity**

The Company does not carry out any trading activity which is significant in the context of the Company.

#### **Share Buyback Policy**

The Board will seek to ensure that there is liquidity in the Company's Generalist Shares and Healthcare Shares and, accordingly, it intends to pursue an active Share buyback policy. Throughout its life, the Company will seek to buy back in the market those Generalist and Healthcare Shares that Shareholders wish to sell, at no discount to the latest published Net Asset Value, subject to applicable regulations, market conditions at the time and the Company having both the necessary funds and distributable reserves available for the purpose. This buyback policy aims to provide liquidity and limit the discount to Net Asset Value at which Shares trade. The making and timing of any share buybacks will remain at the absolute discretion of the Board.

Under the current Listing Rules, the price paid for the Shares cannot be more than the higher of: (i) the amount equal to 105% of the average of the middle market quotations for the five Business Days immediately preceding the date on which the Shares are purchased; (ii) the price of the last independent trade; and (iii) the highest then current independent bid on the London Stock Exchange.

#### **Management**

#### **Downing LLP**

The investment and administration manager of the Company is Downing LLP which is authorised and regulated by the Financial Conduct Authority. Downing specialises in structuring, promoting, managing and administering tax efficient products. In 2011 Downing LLP took over the business and employees of Downing Corporate Finance Limited (which was incorporated in 1986). Downing LLP advises or manages VCTs with over £210 million of net assets.

The total invested by the partners and employees of Downing LLP in the Downing VCTs is over £2 million.

#### **AIFM**

The Company is registered with the FCA as a Small Registered Alternative Investment Fund Manager.

#### **Co-Investment Policy**

The Company's only formal co-investment relationships are with the other Downing VCTs, Downing's IHT and EIS funds (together the "Funds"). It has been agreed that allocations will be offered to each party in proportion to their respective funds available for investment, subject to: (i) a priority being given to any of the Funds in order to maintain their tax status; (ii) the time horizon of the investment opportunity being compatible with the exit strategy of each Fund; and (iii) the risk/reward profile of the investment opportunity being compatible with the target return for each Fund. In the event of any conflicts between the parties, the issues will be resolved at the discretion of the independent directors, designated members and committees of the relevant Funds.

#### **Directors**

The Company has a Board, comprising three Directors, all of whom are non-executive and independent of Downing. Additionally none of the Directors are related to Downing or other funds managed by Downing.

Lord Flight (Chairman) has worked in the financial services industry for over 40 years and co-founded Guinness Flight Global Asset Management. In 1998, upon Guinness Flight's acquisition by Investec, he became joint chairman of Investec Asset Management Limited. He was MP for Arundel and South Downs from 1997 to 2005 and Shadow Chief Secretary to the Treasury between 2000 and 2004. He was appointed to the House of Lords in January 2011. He is chairman of the EIS Association and CIM Investment Management Limited; and is a director of Metro Bank plc, Investec Asset Management Limited and a number of other companies in the financial services sector. He is also a Commissioner of the Guernsey Financial Services Commission.

**Sir Aubrey Brocklebank (Senior Independent Director)** assumed his first role within the VCT industry in 1997, following a career in accountancy, corporate finance and venture capital. Since then he has gone on to become one of the most experienced directors. Sir Aubrey maintains a wide range of business interests and has been a director of six AIM listed companies. He is chairman of Puma VCT 8 plc and Hargreave Hale AIM VCT 1 plc.

**Russell Catley** has over 30 years' experience in the financial sector and is currently chief executive of both Catley Lakeman Securities, the UK's leading provider of institutional structured products and its subsidiary asset manager, Atlantic House Fund Management LLP. Its long-standing clients include JP Morgan, HSBC, Credit Suisse, UBS and Royal Bank of Canada. He was previously a Director at Citigroup Global Markets and AXA Investment Managers UK Limited and was on the Board of AXA World Funds (Luxembourg), one of Europe's largest fund companies from 2001 to 2004.

#### **Charges**

#### **Initial Costs**

The initial costs to Investors are made up of the Promoter's Fee plus Adviser Charges (where applicable).

Downing will charge the Company a Promoter's Fee of 4% of the monies subscribed, where it is required to pay commission to an Intermediary (2% where no commission is payable). Out of its Promoter's Fees, Downing will be responsible for paying all the costs of the Offers (excluding trail commission). Adviser Charges are the fees agreed between Intermediaries and Investors for advice and related services.

The number of Generalist and Healthcare Shares issued under the Offers will be determined by the "blended" issue cost. Applicants will have a different issue cost attributable to their application for Offer Shares depending on the level of Promoter's Fee and Adviser Charges agreed with their Intermediary, adjusted for any early subscription discount. Further information is set out in Part XI on page 68. The total initial expenses of each Offer (assuming full subscription by Execution-Only Investors and/or Professional Client Investors only) will be 4.0% of the gross proceeds and the total net proceeds of each Offer are therefore estimated to be £19.2 million for the Generalist Shares and £9.6 million for the Healthcare Shares.

#### Annual management and administration fees

Downing receives annual investment management fee of 1.5% of the net assets of the DSO Ordinary Shares, DSO B Shares and DSO D Shares per annum (discounted to 1.3% until 20 July 2016), 1.8% of the net assets of the DP2011 General Shares, DP2011 Structured and DP2011 Low Carbon Shares per annum (discounted to 1.6% until 20 July 2016) and 1.35% of the net assets of the DP67 Shares per annum.

In respect of the new Share classes, Downing will receive an investment management fee of 2.0% of net assets per annum in respect of the Generalist Shares and 2.5% per annum in respect of the Healthcare Shares.

In respect of administration fees, Downing is paid a formula based fee comprising three elements: (i) a basic fee of £40,000; (ii) a fee of 0.1% per annum on funds in excess of £10 million; (iii) £5,000 per additional share pool. Assuming full subscription of £30,000,000, the total funds under management will be approximately £65 million resulting in an annual administration fee of around £130,000.

The Annual Running Costs of each share pool are capped at 3.0% (including irrecoverable VAT) of Net Assets in the relevant pool except for the DP67 Share pool which is capped at 2.9% and the new Healthcare Share pool which will be capped at 3.5%. Any excess will be paid by Downing, or refunded by way of a reduction in its fees. Annual Running Costs include, inter alia, Directors' fees, fees for audit and taxation advice, registrar's fees, costs of communicating with Shareholders and investment management fees.

Where the fund is invested in other Downing managed funds, the Manager will arrange for one of the fees to be rebated to the Company to ensure that there is no "double charging".

Downing will receive no carried interest or other performance-related fees, save pursuant to the holding of Management Shares described below.

The Company shall also be responsible for paying 0.25% per annum of the Net Asset Value of those Offer Shares in respect of which adviser commission is payable to Downing for a maximum of five years, from which Downing will pay annual trail commission to the independent financial intermediaries of Professional Client Investors and Execution-Only Investors.

#### Costs payable by investee companies

Downing will receive arrangement fees (capped at 3% of the sums invested by the Company, with any excess paid to the Company) and monitoring fees (capped at the higher of £10,000 pa or 0.5% pa of the cost of the investment, including any director's fees for sitting on the companies' boards) from investee companies. Costs incurred on abortive investment proposals will be the responsibility of Downing.

#### **Performance Incentive**

As is customary in the venture capital industry, members of the management team will be entitled, subject to Shareholder approval, to receive a performance incentive fee in the event that returns to Generalist and Healthcare Shareholders respectively exceed a hurdle. This fee is being set at 20% of dividends paid when total returns are above the Hurdle, with effect from 2021 onwards.

The Performance Incentive in respect of the Generalist and Healthcare Shares will have no impact on Existing Shareholders.

For the Hurdle to be met, the Generalist Shares and/or Healthcare Shares must have a Total Return (based on audited year end results) in excess of £1 for the years ended 31 March 2018, 31 March 2019 and 31 March 2020. For subsequent years, the Total Return hurdle increases by 3p per annum such that for the year ended 31 March 2021 the Total Return hurdle will be £1.03, for the year ended 31 March 2022 the hurdle will be £1.06, for the year ended 31 March 2023 the hurdle will be £1.09 etc.

The Company proposes to give effect to the performance incentive through management shares ("Management Shares") in the Company. When the precise number of shares to be issued to investors under the Offer is known, it is proposed that 20% of such number of shares be issued to certain employees/partners of management at a lower price of 0.1p per share and immediately thereafter transferred to a nominee company, Downing Nominees Limited (the "Nominee"). Accordingly, if the Offer is fully subscribed, 5 million Generalist Share and 2.5 million Healthcare Shares will be issued to Management at 0.1p per share and transferred to the Nominee to hold on behalf of Management.

Whilst these Management Shares will rank *pari passu* with the other issued shares, the Nominee will agree with the Company that, so long as the Management Shares are in issue, it will (a) neither exercise any voting rights attaching to the shares, nor transfer or dispose of any of the shares, and (b) waive any of their entitlement to distributions payable on the shares unless, and to the extent that, the performance hurdle is met. The effect of this arrangement will be to allow the individuals concerned to receive dividends on the shares of 20% of the aggregate dividends payable; this dividend will represent their performance incentive payment. The Nominee will also agree that, should the management agreement be terminated, the Management Shares will be sold at the Company's direction.

Accordingly, if the Hurdle is not met, any distributions otherwise payable in respect of the relevant financial year on the Management Shares will be waived by the Nominee. If the Hurdle is met, the Nominee as holder of the Management Shares will receive any distributions as normal in respect of their holding of 20% of the Generalist and/or Healthcare Shares in issue. In effect, Management will receive a performance incentive fee of 20% of the aggregate dividend paid after the Hurdle is met. If the payment of the full dividend on the Management Shares would result in the Hurdle no longer being met, the Nominee as holder of the Management Shares will waive dividends to the extent to ensure that the Hurdle continues to be met.

For example, the Total Return per share might stand at 103.5p as at 31 March 2021, at which time the Hurdle will be 103.0p. Based on 20 million shares in issue, if a dividend of £1 million (5p per share) is declared in respect of the year ended 31 March 2021, Management would normally be entitled to dividends equivalent to £200,000 (equivalent to 1p per share in issue). However, as this would result in the Hurdle not being met, the management team will waive 50% of their dividend, which will result in net dividends of £100,000 (equivalent to 0.5p per share in issue) being paid on the Management Shares. The Hurdle for the following year end 31 March 2022 will then stand at 106p.

This facility may be utilised whilst the Offers remain open. In the event that applications are received in excess of the full subscription, the Directors and the Sponsor reserve the right to use their absolute discretion in the allocation of successful applications. Applicants are encouraged to submit their Application Form early in order to be confident that their applications will be successful. The Minimum Subscription is £1 million in each class of Offer Shares.

The minimum investment per Applicant is £5,000 (or such lower amount at the Board's discretion) or £500 per month by standing order. The maximum investment, on which tax reliefs in VCTs are available, is £200,000 per Applicant in each of the 2016/17 and 2017/18 tax years. Spouses can each invest up to £200,000 in each tax year. If the Minimum Subscription is not received by 3.00 p.m. on 5 April 2017, the Offers will be withdrawn and application monies will be returned to applicants within seven days of such date, at their own risk, without interest. The Offers are not underwritten.

Generalist and Healthcare Shares will be allotted and issued in respect of valid applications on 5 April 2017, 30 September and on any other dates on which the Directors decide, but at least quarterly thereafter. Application has been made to the UK Listing Authority on behalf of the Company for the Admission of all of the Generalist Shares and Healthcare Shares. Subject to the Minimum Subscription being received by then, it is anticipated that dealings in the first allotment of Generalist Shares and Healthcare Shares will commence by 25 April 2017 and in respect of subsequent allotments within 20 Business Days of allotment. Dealings may begin before notification of allotments is made. Revocation of the Offers cannot occur after dealings in the Generalist and Healthcare Shares have commenced. The Company has applied for its Generalist and Healthcare Shares to be admitted to CREST and it is expected that the Generalist and Healthcare Shares will be so admitted and, accordingly, enabled for settlement in CREST, as soon as practicable after Admission has occurred. Accordingly, settlement of transactions in the Generalist and Healthcare Shares following Admission may take place within the CREST system if Generalist and Healthcare Shareholders wish. CREST is a voluntary system and Generalist and Healthcare Shareholders who wish to receive and retain share certificates will be able to do so. Share certificates (where applicable) and certificates to enable a claim for income tax relief to be made in respect of Generalist and Healthcare Shares will be posted to Generalist and/or Healthcare Shareholders as applicable within 30 days of each allotment. No notification will be made to successful applicants prior to despatch of definitive share certificates.

Prior to despatch of definitive share certificates (where applicable), transfers (if any) will be certified against the register. No temporary documents of title will be issued.

The result of the Offers will be announced through a regulatory information service provider authorised by the FCA.

#### **Operation of the Company and Board Practices**

#### (a) Board of Directors

The Company complies with the provisions of the UK Corporate Governance Code, with the exception of the following, for the reasons set out below:

- (i) new Directors do not receive a full, formal and tailored induction on joining the Board and such matters are addressed on an individual basis as they arise. In addition, as the Company does not have any major shareholders, shareholders are not given an opportunity to meet any new non-executive directors at specific meetings other than at the Annual General Meetings;
- (ii) the Board consider that all Directors have sufficient experience to be able to exercise proper judgement within the meaning of the UK Corporate Governance Code;
- (iii) as the Company has no staff, other than Directors, there are no procedures in place relating to whistleblowing;
- (iv) due to the size of the Board, there are no formal performance evaluations of the Board, their committees, the individual Directors or the Chairman. Specific performance issues are dealt with as they arise; and
- (v) the Directors do not have fixed term renewable service contracts as recommended in the UK Corporate Governance Code. Instead they have letters of appointment, further details of which are set out in paragraph 6(c) of Part VIII of this document.

The Board comprises three members, all of whom are non-executive directors and considered to be independent of Downing.

The Board meets regularly throughout the year (normally at least quarterly) and all necessary information is supplied to the Directors on a timely basis to enable them to discharge their duties effectively including, but not limited to, monitoring and managing the performance of key service providers including Downing. Additionally, special meetings take place or other arrangements are made when Board decisions are required in advance of regular meetings. The Board is responsible for controlling the Company. The Board is responsible for the determination and calculation of the Company's Net Asset Value, which will be undertaken in accordance with the Company's accounting policies and published on an appropriate regulatory information service provider (including in the announcement of annual and half yearly results of the Company). The Board does not envisage any circumstances in which such calculations would be suspended but, were this to occur, such suspension would be communicated to shareholders in a similar manner.

The Board delegates specific responsibilities to the committees described below.

#### (b) Audit Committee

All directors sit on the audit committee which is chaired by Sir Aubrey Brocklebank. The audit committee meets not less than once a year. The Company's auditors and the senior executives of Downing may attend and speak at audit committee meetings.

A summary of the terms of reference of the audit committee is as follows: the committee has responsibility for, among other things, the planning and reviewing of the Company's annual and half yearly reports and the supervision of its auditors in the review of such financial statements. The audit committee focuses particularly on the Company's compliance with legal requirements, accounting standards, financial and regulatory reporting requirements, the Listing Rules and the Prospectus Rules and ensuring that effective systems for internal financial control and for reporting non-financial operating data are maintained. The ultimate responsibility for reviewing and approving the annual report and accounts and half yearly financial reports remain with the Board.

#### (c) Remuneration Committee

All directors sit on the remuneration committee, which meets as and when required, and is chaired by Lord Flight.

A summary of the terms of reference of the remuneration committee is as follows: this committee has responsibility for determining the Company's policy on the remuneration of the Directors, and the committee refers to standard industry practice as well as comparative remuneration levels and structures prevalent in companies of a similar profile and size, and in similar industry sectors to the Company, taking account of any special circumstances that may be relevant in terms of the Directors' responsibilities and duties. The maximum Directors' remuneration will also be determined by reference to the Company's Articles and/or ordinary resolutions of Shareholders from time to time.

#### (d) Nomination Committee

All Directors sit on the nomination committee, which meets as and when required, and is chaired by Lord Flight. The committee has responsibility for considering the size, structure and composition of the Board, the retirement and appointment of Directors, and will make appropriate recommendations to the Board in relation to these matters.

As at the date of this document, the Company currently complies with the UK Corporate Governance Code in all respects other than those mentioned above.

#### Part II - Generalist Shares

#### Introduction

The Generalist Share pool will seek to invest in a broad range of businesses which are eligible for investment under the latest VCT regulations. This will typically be young developing unquoted businesses.

#### **Downing's Track Record**

Downing manages or advises a number of VCTs, EIS schemes and other funds. Several of the Downing VCTs have a planned exit strategy, however Downing ONE VCT, which was formed by the merger of six other VCTs in November 2013, is the only VCT managed or advised by Downing which has a similar "evergreen" strategy to that of the Generalist Share pool.

The track record of Downing ONE is summarised as follows:

	From	То	Size of fund	Initial NAV	Total Return	Uplift
Downing Healthcare Protected VCT plc (original name of fund)	May 1997	Nov 2013*	£7.1m	100.0p	154.5p	54.5%
Downing ONE VCT plc	Nov 2013	Aug 2016	£93.7m	100.0p	107.5p	7.5%

<sup>\*</sup>November 2013 was the date Downing Healthcare Protected VCT plc and a number of other VCTs were merged into Downing ONE

Source: Downing ONE VCT plc NAV announcement 21 September 2016 and Downing Absolute Income VCT 1 plc (formerly Downing Healthcare Protected VCT) half years' report to 31 December 2012

#### **Strategy and Approach**

The Generalist Share pool will invest in businesses that are less than 7 years old and are seeking funds to finance their growth. Some of these businesses may own substantial assets such as pubs, wedding venues or datacentres where the Company can take a charge over the assets and may benefit from some downside protection. The share pool will also invest in businesses which do not have any asset-backing. These will often be higher risk but potentially offer greater rewards. There is no pre-determined allocation of funds between these two types of investments. The allocation will be determined by Downing's dealflow during the period when funds are being invested.

Funds not invested in qualifying investments will be invested in OEICs, Investment Trusts and other securities in line with the investment policy. It is expected that a significant proportion of these funds will be invested in such funds also managed by Downing such as the MI Downing UK Micro-Cap Growth Fund. Whenever the Company invests in another fund managed by Downing, it will only do so on the basis that Downing agrees to waive all of the management fees charged to the other fund in respect of that investment in order to prevent double recovery and ensure fair treatment of investors. Any conflicts of interest that may arise in this regard shall be dealt with under Downing's co-investment policy set out on page 17 and will be managed by the independent boards of the respective funds or, in the case of an OEIC, by the ACD operating within the framework of the UCITS regulations.

#### **Downing's Management Team**

Downing has a team of over 20 executives involved in the management of unquoted investments. Key members of the team that will have responsibility for investing the funds of the Generalist Share pool are as follows:

#### Chris Allner – Head of Investment

Chris has over 30 years of venture capital and private equity experience, most recently as head of private equity at Octopus Investments. Prior to that, he was a director at Beringea and Bridgepoint with previous experience at 3i and Charterhouse.

Chris has transacted over 50 investments and has sat on the boards of a number of unquoted and quoted portfolio companies across a variety of commercial sectors. Chris joined Downing in March 2012. Current board seats include Claresys Ltd and Curo Ltd. He is also on the board of trustees for Vital Regeneration, a Westminster based charity.

#### **Kostas Manolis**

Kostas has more than 11 years' private equity experience as investor, board director, portfolio manager, adviser and business angel. Kostas worked as a corporate finance adviser at PwC, where he advised institutions and management teams on private equity deals, and later joined the private equity team of Bank of Scotland in 2006. He was a member of the Caird Capital team that led a successful spin out of a £0.5bn private equity portfolio from Lloyds Banking Group in 2010.

Kostas joined Downing as a partner in 2015. As a director or observer in numerous businesses, he has worked with management teams through operational improvement, growth, turnaround and successful exits. Kostas holds a degree in Biochemistry and a PhD in Molecular Genetics and is a Chartered Accountant.

#### **Colin Corbally**

Colin qualified as a solicitor with Linklaters in 1996. He spent six years at 3i Group in corporate finance and venture capital where he was a senior manager. He then spent four years at The Royal Bank of Scotland where he was a director, structuring debt and equity investments, before joining Downing in 2006. Colin leads Downing's renewable energy investments department.

#### Jonathan Boss

Jonathan is a chartered accountant and has spent the past 20 years working with the owners of private companies and has led 100 transactions, comprising growth investments, management buy-outs, acquisitions, company sales and refinancings. Sitting on the boards of many of the companies in which he invests, Jonathan builds relationships with management teams based on agreeing shared goals and working hard together to achieve them. At Downing, Jonathan invests in a range of growing businesses, but has a particular interest in data centres, children's nurseries and wedding venues.

#### Steven Kenee

Steven qualified as a chartered accountant in 2004 with Baker Tilly, where he worked for over six years in corporate finance, corporate restructuring and audit with a specific focus on small and medium sized businesses. He joined Downing in 2008 since which time he has led a number of VCT, EIS and IHT investments. He currently manages a portfolio in excess of £56 million and heads up the licensed sector team.

#### **Generalist Pool Management fees**

An annual management fee of 2.0% of net assets per annum will be charged by Downing to the Generalist Share pool. An administration fee and monitoring fees will also be charged as set out on page 18.

A performance incentive will be payable to Downing in the event that a performance hurdle is met. The hurdle will be set at a Total Return of at least £1 per share for the years ended 31 March 2018, 31 March 2019 and 31 March 2020 and increasing by 3% per annum thereafter. If the Hurdle is met, the Performance Incentive will be a sum equivalent to 20% of the total dividends paid in respect of the relevant financial year on the Generalist Shares.

#### Part III - Healthcare Shares

#### Introduction

Recent changes to the VCT rules have re-focused VCTs towards investing in younger developing businesses. The healthcare sector has traditionally provided significant opportunities for investments in innovative companies which have delivered excellent rewards to investors. With an ageing population and national health expenditure increasing, the UK healthcare market is likely to continue to grow.

Downing has partnered with the management team at BioScience Managers Pty Ltd to provide VCT investors with an opportunity to gain exposure to this sector through an experienced adviser with a strong track record.

#### **Healthcare Investment Adviser**

In investing funds in the Healthcare Share pool, Downing will be advised by BioScience Managers Pty Limited. BioScience Managers Pty Limited ("BioScience") is based in Melbourne, Australia and manage life sciences investments across the globe. The BioScience Group is headed by Jeremy Curnock Cook, who has been an active investor in the life sciences sector since the 1970s, including an extensive period at Rothschild Asset Management where he launched and managed the International Biotechnology Trust plc.

BioScience will be responsible for investment origination, due diligence (in conjunction with Downing), assistance with management, monitoring of the investments and identifying exit opportunities.

#### **Investment Adviser's Track Record**

BioScience have launched two funds since their formation in 2008; IB Australian Bioscience Fund I and Asia Pacific Healthcare Fund II. Both funds were launched as limited life funds, the first of which has now wound up achieving 22.5% net IRR p.a. and was ranked in the top decile of Global PE/VC funds. The Asia Pacific Healthcare Fund II launched in September 2012 and is a 10 year fund so it is too early to judge performance.

In 1994, while at Rothschild Asset Management, Jeremy Curnock Cook launched and managed the International Biotechnology Trust plc. He managed this fund until August 2000 when he left Rothschild. The fund began with committed capital of £77 million and grew to £349 million by the end of his period in charge.

The relevant performance of each of these funds is summarised as follows:

	Launch	End	No. of core investments	Size of fund	IRR
The International Biotechnology Trust plc	May-94	Aug-00 *	30	£349.3m	40.0%
IB Australian Bioscience Fund I	Jul-08	Nov-14	12	AUS\$42m	22.5%
Asia Pacific Healthcare Fund II	Sep-12	Mar-16**	7	AUS\$56m	N/A

<sup>\*</sup> End date of August 2000 being the date when Jeremy Curnock Cook ceased to manage the fund.

This information has been accurately reproduced and as far as the Company is aware and is able to ascertain from information published, no facts have been omitted which would render the reproduced information inaccurate or misleading.

<sup>\*\*</sup> This is a 10 year fund and so it is too early to meaningfully judge performance.

#### **Strategy and Approach**

The Healthcare Share pool will focus its VCT Qualifying Investments on early and mid-stage healthcare investments including life sciences and bioscience companies. Each of the investments will have a permanent base in the UK to ensure that they are qualifying investments under the VCT regulations.

BioScience understands that investee companies typically require much more than financial support, as they face unique challenges when navigating each stage towards commercialisation. These challenges can range from needing assistance with management evolution and development, to regulatory and clinical trial expertise, to introduction to capital and international networks.

Bioscience's investment approach involves working closely with the management of each investee company, applying their considerable experience to meet the challenges and achieve the best possible outcome.

This 'hands on' approach is optimised by holding a relatively small number of investments in the portfolio and, where possible, taking a large stake in each, to ensure the shareholding carries significant influence.

Funds not invested in qualifying investments will be invested in OEICs, Investment Trusts and other securities in line with the investment policy. It is expected that a significant proportion of these funds will be invested in such funds also managed by Downing such as the MI Downing UK Micro-Cap Growth Fund. Whenever the Company invests in another fund managed by Downing, it will only do so on the basis that Downing agrees to waive all of the management fees charged to the other fund in respect of that investment in order to prevent double recovery and ensure fair treatment of investors. Any conflicts of interest that may arise in this regard shall be dealt with under Downing's co-investment policy set out on page 17 and will be managed by the independent boards of the respective funds or, in the case of an OEIC, by the ACD operating within the framework of the UCITS regulations.

#### **Investment Adviser's Management Team**

Key members of the BioScience management team and the constituents of Bioscience's investment committee.

#### Jeremy Curnock Cook – Managing Director

Jeremy Curnock Cook is the former head of the life science private equity team at Rothschild Asset Management and an active investor in the Australian life science sector.

At Rothschild, Jeremy was responsible for the launch of the first dedicated biotechnology fund for the Australian market and the launch of a joint venture with Johnson & Johnson Development Corporation for the creation of Healthcare Ventures, an investment vehicle dedicated to seed stage investments in Europe, as well as the conception and launch of the International Biotechnology Trust (IBT). IBT was launched in 1994 as a publicly listed investment trust focused internationally on mid stage investments in life sciences.

Prior to joining Rothschild, Jeremy founded the International Biochemicals Group (IBG) in 1975, and built an 80-person company focused on the development and commercialisation of products containing tailored microbial strains for application in industrial pollution control and agriculture. IBG's clients included multinationals McDonalds and Royal Dutch Shell. Following the successful sale of IBG to Royal Dutch Shell in 1985, he managed the integration process into Shell operations prior to being invited to join Rothschild in 1987.

#### Matt McNamara - Chief Investment Officer

Matt is responsible for deal flow management and evaluation, leading all investment recommendations and due diligence at BioScience. He has over 25 years' experience in the healthcare & medical sciences sector. After initially being a Molecular Biology Research Assistant, Matt spent 11 years in Sales & Marketing, and General Management with Merck & Co. and Johnson and Johnson Medical Pty Ltd respectively. He has served as SVP Business Development for eBioinformatics Inc and was CEO of a Life Sciences Venture Capital fund, SciCapital Pty Ltd.

Matt founded BioBridge Australia, a biotechnology commercialisation advisery company, in 2004 and advised a number of private and public biotechnology/investment companies. Matt joined BioScience Managers in 2005 and has been Chief Investment Officer since 2008.

#### **David Phillips**

David has spent over 30 years in the healthcare industry, including 14 years in sales and marketing with Glaxo Wellcome, Cephalon Inc, Oxford Molecular Group Plc, and latterly 8 years with SR One (GSK's Corporate Venture Fund). In between these two periods with GSK, David spent 12 years at Board level as Chief Business Officer of Argenta Discovery, The Automation Partnership and BioFocus Plc (prior to the divestment to Galapagos NV where he stayed with the business).

David rejoined GSK's SR One in 2008 to pioneer a new function to incubate and spin-out technologies from GSK and in parallel investing in early stage life science companies. He has divested a number of R&D operations and drug delivery technologies and led the team that divested GSK's Opiates business in Australia in 2015. David joined BioScience in 2016.

#### **Healthcare Pool Management Fees**

Downing will have overall responsibility for the management of the funds in the Healthcare Share pool but will be closely advised by BioScience. BioScience will be responsible for sourcing and carrying out due diligence on investment opportunities, and Downing approve investments and be responsible for the ongoing monitoring of investments, with assistance from BioScience where required.

An annual management fee of 2.5% of net assets per annum will be charged by Downing to the Healthcare pool. Downing will be responsible for paying BioScience from their fees.

A performance incentive will be payable to Downing in the event that a performance hurdle is met. The Hurdle will be set at a Total Return of at least £1 per share for the years ended 31 March 2018, 31 March 2019 and 31 March 2020 and increasing by 3% per annum thereafter. If the Hurdle is met, the Performance Incentive will be a sum equivalent to 20% of the total dividends paid in respect of the relevant financial year on the Healthcare Shares. A sum equivalent to 50% of the performance incentive payment will be paid to BioScience by Downing.

#### **Part IV – Taxation**

#### VCTs: Summary of the applicable legislation in respect of Investors

#### 1. Taxation of a VCT

VCTs are exempt from corporation tax on chargeable gains. There is no restriction on the distribution of realised capital gains by a VCT, subject to the requirements of company law. The Company will be subject to corporation tax on its income (excluding dividends received from UK companies) after deduction of attributable expenses.

#### 2. Tax reliefs for individual investors

Individuals who subscribe for Offer Shares must be aged 18 or over to qualify for the tax reliefs outlined below.

#### Relief from income tax

A qualifying investor subscribing up to £200,000 in the 2016/17 and/or 2017/18 tax years for eligible shares in a VCT will be entitled to claim income tax relief, at the rate of 30%, although this relief will be withdrawn if either the shares are sold within five years or the investor takes out a loan which would not have been made, or would not have been made on the same terms, save for the acquisition of such shares. Relief is restricted to the amount which reduces the investor's income tax liability to nil. Shareholders should note that if they have sold, or if they sell, any shares in the Company within 6 months either side of the subscription for the Offer Shares, then for the purposes of calculating tax relief on the Offer Shares the subscribed amount must be reduced by the amount received from the sale.

#### Dividend relief

An investor who subscribes for or acquires eligible shares in a VCT (up to a maximum of £200,000 in each of the 2016/17 and 2017/18 tax years) will not be liable for UK income tax on dividends paid by the VCT. The income received by the VCT will usually constitute either interest (on which the VCT may be subject to tax) or a dividend from a UK company (on which the VCT would not be subject to tax). The VCT's income, reduced by the payment of tax (if applicable), can then be distributed tax-free to investors who benefit from this dividend relief. There is no withholding tax on dividends paid by a UK company and, consequently, the Company does not assume responsibility for the withholding of tax at source. Until 5 April 2016, dividends carry a tax credit at the rate of one-ninth of the net dividend which is not repayable and which cannot be utilised in any other way.

#### Capital gains tax relief

A disposal by an individual investor of his/her shares in a VCT will neither give rise to a chargeable gain nor an allowable loss for the purposes of UK capital gains tax. This relief is also limited to disposals of shares acquired within the £200,000 limit described above.

#### Loss of tax reliefs

- (i) If a company which has been granted approval or provisional approval as a VCT subsequently fails to comply with the conditions for approval, VCT status may be withdrawn or treated as never having been given. The exemptions from corporation tax on capital gains will not apply to any gain realised after VCT status is lost (and on any gain realised by the VCT if approval is deemed never to have been given).
- (ii) For investors, the withdrawal of VCT status may (depending upon the timing of such withdrawal) result in:
  - repayment of the 30% income tax relief on subscription for new VCT shares;
  - income tax becoming payable on subsequent payments of dividends by the company; and
  - a liability to tax on capital gains being suffered in the normal way on the disposal of shares in the company, except that any part of the gain attributable to the period for which the VCT was approved would remain exempt.
- (iii) The consequences for investors in a company which never obtains full unconditional approval as a VCT are as follows:
- repayment of the 30% income tax relief on subscriptions for new VCT shares and interest on overdue tax may arise;
- income tax becoming payable on all payments of dividends by the company; and

• any gain arising on a disposal of the shares would be liable to capital gains tax and losses on the shares would be allowable losses for capital gains tax purposes.

The Offer Shares are eligible VCT shares for the purposes of this section.

#### 3. Consequences of an investor dying or a transfer of shares between spouses

(i) Initial income tax

If an investor dies at any time after making an investment in a VCT, the transfer of shares on death is not treated as a disposal and, therefore, the initial income tax relief is not withdrawn. However, the shares will become part of the deceased's estate for inheritance tax purposes.

(ii) Tax implications for the beneficiary

Provided a number of conditions are met, the beneficiary of any VCT shares will be entitled to tax-free dividends and will not pay capital gains tax on any disposal, but will not be entitled to any initial income tax relief.

(iii) Transfer of shares between spouses

Transfers of shares in a VCT between spouses is not deemed to be a disposal and, therefore, all tax reliefs will be retained.

#### 4. General

(i) Investors who are not resident in the UK

Non-resident investors, or investors who may become non-resident, should seek their own professional advice as to the consequences of making an investment in the Company, because they may be subject to tax in other jurisdictions.

(ii) Stamp duty and stamp duty reserve tax

No stamp duty or (unless shares in a VCT are issued to a nominee for a clearing system or a provider of depository receipts) stamp duty reserve tax will be payable on the issue of VCT shares. The transfer on the sale of shares would normally be subject to ad valorem stamp duty or (if an unconditional agreement to transfer such shares is not completed by a duly stamped transfer within four months) stamp duty reserve tax generally, in each case at the rate of 50p for every £100 or part of £100 of the consideration paid where the total consideration exceeds £1,000 or if it forms part of a series of transactions where the total consideration exceeds £1,000. Such duties would be payable by a person who purchases such shares from the original subscriber.

(iii) Purchases in the market after listing

Any subsequent purchaser of existing VCT shares, as opposed to a subscriber for new VCT shares, will not qualify for income tax relief on investment but may benefit from dividend relief and from capital gains tax relief on the disposal of his/her VCT shares.

(iv) The VCT Regulations 2004

The VCT Regulations came into force on 17 October 2004. Under the VCT Regulations, monies raised by any further issue of shares by an existing VCT must be applied by that VCT for qualifying purposes. If any of the money raised (except for amounts which HM Revenue & Customs agrees are insignificant in the context of the whole issued ordinary share capital of the VCT) is used by the VCT to purchase its own shares then the funds may be deemed to not have been used for a qualifying purpose.

The above is only a summary of the tax position of individual investors in VCTs and is based on the Company's understanding of current law and practice. Investors are recommended to consult a professional adviser as to the taxation consequences of their investing in a VCT. All tax reliefs referred to in this document are UK tax reliefs and are dependent on the Company maintaining its VCT qualifying status.

#### **VCT** approval

To obtain VCT status a company must be approved by HM Revenue & Customs as a VCT. HM Revenue & Customs has granted the Company approval under Section 274 ITA as a VCT and the Company intends to continue complying with the requirements of such section.

For a VCT to obtain full unconditional approval, the conditions summarised below must be satisfied in relation to the accounting period of the company which is current when the application for approval is made, or in any event must be satisfied by no later than the beginning of the VCT's next accounting period and must continue to be satisfied throughout the life of the VCT:

- (i) the VCT's income must have been derived wholly or mainly from shares and securities (in the case of securities issued by a company, meaning loans with a five-year or greater maturity period);
- (ii) no holding in a company (other than a VCT or a company which would, if its shares were listed, qualify as a VCT) by the VCT may represent more than 15% by value of the VCT's total investments at the time of investment; and
- (iii) the VCT must not have retained more than 15% of the income derived from shares or securities in any accounting period; and
- (iv) the VCT must not make an investment into a company which causes that company to have received more than £5 million of state aided risk finance in a rolling 12 month period, or more than £12 million in total (£20 million for a 'knowledge intensive' company); and
- (v) no investment can be made by the VCT in a company whose first commercial sale was more than 7 years prior to the date of investment, except where previous State aid Risk Finance was received by the company within 7 years (10 years for a 'knowledge intensive' company) or where a turnover test is satisfied and the investment is used to enter a new product or geographical market;
- (vi) no funds received from an investment by the VCT into a company can be used to acquire another existing business or trade; and
- (vii) the VCT must not make any investments other than qualifying investments or certain non-qualifying investment specified in section 274 Income Tax Act 2007.

The VCT must not be a close company. Its ordinary share capital must be quoted on any regulated market in the EU or European Economic Area.

The VCT must not in respect of any share capital created on or after 6 April 2014, and any reserves created from the cancellation thereof, make any payment or distribution out of such share capital and reserves to shareholders within three years from the end of the accounting period in which that share capital was created.

The following conditions also have to be satisfied by no later than the beginning of the VCT's accounting period which commences no later than three years after provisional approval takes effect and must continue to be satisfied throughout the life of the VCT:

- (i) at least 70% by value of its investments is represented by shares or securities comprising qualifying investments; and
- (ii) for funds raised before 6 April 2011, at least 30% by value of its qualifying investments is represented by holdings of ordinary shares which carry no present or future preferential rights to dividends, return of capital on a winding up or any redemption rights. For funds raised on or after 6 April 2011, at least 70% by value of its qualifying investments is represented by "eligible shares" which are ordinary shares which carry no present or future preferential rights to a return or capital on a winding up or any redemption rights, but may have certain preferential rights to dividends.

Disposals of qualifying holdings (which have been so qualifying throughout the six months prior to disposal) are disregarded for the purposes of the 70% test for a period of six months.

"Qualifying investments" comprise shares or securities (including loans with a five year or greater maturity period but excluding guaranteed loans and securities) issued by unquoted trading companies which exist wholly or mainly for the purpose of carrying on one or more qualifying trades. The trade must be carried on by, or be intended to be carried on by, the investee company or a 90% held qualifying subsidiary (directly held or in the third tier within the group) at the time of the issue of the shares or securities to the VCT and at all times thereafter. The Qualifying Company must have a permanent establishment in the UK.

A company intending to carry on a qualifying trade must begin to trade within two years of the issue of shares or securities to the VCT and continue it thereafter. The definition of a qualifying trade excludes certain activities, including dealing in property, shares, securities, commodities or futures. It also excludes banking, insurance, receiving royalties or licence fees in certain circumstances, leasing, the provision of legal and accounting services, farming and market gardening, forestry and timber production, property development and operating or managing hotels, guest houses, nursing and residential care homes, coal production, steel production, ship building or the generation of electricity. The funds raised by the investment must be used for the purposes of the qualifying trade within certain time limits.

A qualifying investment can be made in a company which is a parent company of a trading group where the activities of the group, taken as a whole, consist of carrying on one or more qualifying trades. The subsidiary carrying on the qualifying trade in question must be at least 90% owned by the parent company. The investee company's gross assets, or those of the group if it is a parent company, must not exceed £15 million immediately prior to the investment and £16 million thereafter. Neither the VCT nor any other company may control the investee company. At least 10% of the VCT's total investment in the investee company must be in "eligible shares" as defined above. Qualifying Companies or groups must have fewer than 250 employees. Companies are permitted to receive a maximum of £5 million from investments made under the European Commission's Risk Finance Guidelines in the 12 months ending on the date of the VCT's investment, and a total maximum of £12 million of such investment (£20 million for a "knowledge intensive company"). The company's first commercial sale must be no more than 7 years before the date of the VCT's investment (10 years for a "knowledge intensive company"), except where previous State Aided risk finance investment was received by the company in that 7 or 10 year period, or where a turnover test is satisfied. There is also a disqualifying purpose test designed to exclude companies set up for the purpose of accessing the tax reliefs. There is an exclusion on the use of VCT funds for the acquisition of a trade, business, or of shares in another company.

Companies whose shares are traded on AIM, are PLUS quoted or PLUS traded are treated as unquoted companies for the purposes of calculating qualifying investments. Shares in an unquoted company which subsequently become listed may still be regarded as a qualifying investment for a further five years following listing, provided all other conditions are met.

VCTs may only use the non-qualifying portion of their portfolio to make a limited range of investments for the purposes of liquidity management, specifically in listed shares, shares or units in alternative investments funds and UCITS (each of which must be redeemable on seven days' notice by the investor) and short term cash deposits.

The Company will notify through a Regulatory Information Service provider any action that Downing will take in the event of a breach of any of the conditions to remaining a VCT.

#### Part V – Financial Information

#### 1. Introduction

Audited statutory accounts of the Company for the periods ended 31 March 2014, 31 March 2015 and 31 March 2016, in respect of which the Company's auditors, BDO LLP, 55 Baker Street, London W1U 7EU, registered auditors under the Statutory Audit Directive (2006/43/EC) and members of the Institute of Chartered Accountants in England and Wales, made unqualified reports under section 495 of the 2006 Act, have been delivered to the Registrar of Companies and such reports did not contain any statements under section 498(2) or (3) of the 2006 Act. Copies of these audited statutory accounts are available at Ergon House, Horseferry Road, London SW1P 2AL.

The audited statutory accounts of the Company are drawn up under the Financial Reporting Standard 102 ("FRS 102"), and previously under UK Generally Accepted Accounting Practice (UK GAAP). The Company and the Directors confirm that the Company's most recent financial information for the six months ended 30 September 2016 (prepared under Financial Reporting Standard 102) and prior to that the audited results for the year to 31 March 2016 and 31 March 2015, have been presented and prepared in a form which is consistent with that which will be adopted in the Company's next published annual financial statements having regard to accounting standards, policies and legislation applicable to such annual financial statements in so far as there are no material differences between the financial statements for these years prepared under these two accounting frameworks.

These financial statements also contain a description of the Company's financial condition, changes in financial condition and results of operations for each financial period.

The most recent announced unaudited NAV was 20.0p per DSO B Share, 0.1p per DSO C Share, 75.5p per DSO D Share, 63.9p per DP67 Share, 25.0p per DP2011 General Ordinary Share, 30.3p per DP2011 General A Share, 14.9p per DP2011 Structured Ordinary Share, 31.8p per DP2011 Structured A Share and 41.7p per DP2011 Low Carbon Share as at 30 September 2016. Whilst the Offers may result in the net assets of the Company being increased by up to £30,007,500 (being the maximum proceeds of the Offers gross of issue costs and ignoring the over allotment facility), as the Generalist Shares and Healthcare Shares will each form a separate pool there will be no impact as a result of the Offers on the net asset value and earnings attributable to the holders of the Existing Shares save that the running costs per Existing Share are expected to reduce over time as the fixed costs of the Company, i.e. costs which are not incurred as a proportion of net assets, are spread over a larger net assets base.

#### 2. Historical Financial Information

Historical financial information relating to the Company (and to those other VCTs with which the Company was merged on 20 July 2015) on the matters referred to below is included in the published annual report and audited statutory accounts and published unaudited half yearly accounts of the Company (and to those other VCTs whose assets the Company acquired on 20 July 2015) for the periods stated (which are hereby incorporated by reference) as follows:

## 9. STAMP DUTY, STAMPY DUTY RESERVE TAX AND CLOSE COMPANY STATUS

The Company has been advised that no stamp duty or stamp duty reserve tax ("SDRT") will be payable on the issue of the Shares issued under the Offers.

The transfer or sale of any Shares will be liable to ad valorem stamp duty normally at the rate of 0.5% of the amount or value of the consideration (rounded up to the nearest £5). An unconditional agreement to transfer Shares also gives rise to an obligation to account for SDRT, which is payable within seven days of the start of the month following that in which the agreement was entered into. The payment of stamp duty gives rise to a right to repayment of any SDRT paid. There will be no stamp duty or SDRT on the transfer of the Shares into CREST unless such a transfer is made for consideration in money or money's worth, in which case a liability to SDRT will arise usually at a rate of 0.5%. A transfer of Shares effected on a paperless basis through CREST will generally be subject to SDRT at a rate of 0.5% of the value of the consideration. Following the issue of the Shares pursuant to the Offers, the Company is not likely to be a close company for tax purposes.

## **Part IX- Additional Information**

## 1. The Company

## 1.1 Cancellation of the share premium account

The Directors are aware of the possibility that the Company's Shares may trade at a discount to their net asset value at some point. The Directors consider that the Company should have the ability to purchase its Shares in the market (such Shares to be automatically cancelled) with the aim of reducing any discount and increasing the liquidity in the Company's Shares. In the view of the Directors, the awareness of Investors that the Company has such a capability may tend to moderate the scale of any discount which may emerge and the action of buying in shares should enable any such discount to be narrowed.

The 2006 Act provides that a public company may only purchase its own shares out of distributable profits or out of the proceeds of a fresh issue of Shares made for the purpose of the purchase. Subject to confirmation from HM Revenue & Customs that such proposals will not adversely affect the Company's VCT status and Court approval, the Company may decide to reduce and/or cancel the share premium account (created on the issue of the Generalist Shares and Healthcare Shares pursuant to the Offers) and to transfer the balance of the special reserve, which is established by the cancellation of a previous share premium account, which may be treated as a distributable profit, out of which purchases of Shares can be made, subject to regulations, VCT Rules and company legislation.

Following changes in Finance Act 2014 for shares issued after 5 April 2014, the Company may not return the capital raised by a share issue to its investors for a period of three years from the end of the accounting period in which the shares were issued. There is no restriction on dividends funded out of income received attributable to the Generalist Shares or Healthcare Shares.

## 1.2 Material interests

Downing will be paid an annual investment management fee of 2.0% of the Net Assets attributable to the Generalist Shares and 2.5% of the Net Assets attributable to the Healthcare Shares. In line with normal VCT practice, Downing will be entitled to receive a Performance Incentive. Further details of these arrangements are set out in Part I of this document.

The results of the Offers together with the relevant information regarding the offer price will be announced through a Regulatory Information Service provider.

## Part X – Terms and Conditions of Application

- 1. In these Terms and Conditions of Application, the expression "Prospectus" means this document. The expression "Application Form" means the application form for use in accordance with these Terms and Conditions of Application. Save where the content otherwise requires, the terms used in the Application Form bear the same meaning as in the Prospectus.
- 2. The right is reserved to reject any application or to accept any application in part only. Multiple applications are permitted. If any application is not accepted, or if any contract created by acceptance does not become unconditional, or if any application is accepted for fewer Offer Shares than the number applied for, or if in any other circumstances there is an excess payment in relation to an application, the application monies or the balance of the amount paid or the excess paid on application will be returned without interest by post at the risk of the Applicant. In the meantime application monies will be retained in the Company's bank account.
- 3. You may pay for your application for Offer Shares by cheque or banker's draft submitted with the Application Form or direct bank transfer (CHAPS/BACS).
- 4. The contract created by the acceptance of applications in respect of the first allotment of Offer Shares will be conditional on:
- (a) the Minimum Subscription under the relevant offer being received by 3.00 p.m. on 5 April 2017;
- (b) resolutions 1-9 being passed at the Company's General Meeting to be held on 16 January 2017 or at a subsequent meeting, if adjourned; and
- (c) admission of the Offer Shares (in respect of such first allotment of Shares) being granted not later than 3:00 p.m. on 30 April 2017. If the conditions are not met, the Offers will be withdrawn and subscription monies will be returned to Investors within seven days of 30 April 2017, at their own risk, without interest. The Offers are not underwritten.
- 5. By completing and delivering an Application Form, you:
- (a) offer to subscribe for the amount specified on your Application Form plus any commission waived for extra shares or any smaller sum for which such application is accepted at the Offer Price;
- (b) acknowledge that, if your subscription is accepted, you will be allocated such number of Offer Shares as determined by the Pricing Formula;
- (c) authorise your financial adviser, or whoever he or she may direct, the Registrar or the Company to send a document of title for, or credit your CREST account in respect of, the number of Offer Shares for which your application is accepted, and/or a crossed cheque for any monies returnable, by post at your risk to your address as set out on your Application Form;
- (d) in consideration of the Company agreeing that it will not, prior to the closing date of the Offers, offer any Offer Shares to any persons other than by means of the procedures set out or referred to in this document, agree that your application may not be revoked once made and that this paragraph constitutes a collateral contract between you and the Company which will become binding upon despatch by post or delivery of your duly completed Application Form to the Company or to your financial adviser;
- (e) warrant that your remittance will be honoured on first presentation and agree that, if such remittance is not so honoured, you will not be entitled to receive share certificates for the Offer Shares applied for or to enjoy or receive any rights or distributions in respect of such Offer Shares unless and until you make payment in cleared funds for such Offer Shares and such payment is accepted by the Company (such acceptance shall be in its absolute discretion and may be on the basis that you indemnify it against all costs, damages, losses, expenses and liabilities arising out of or in connection with the failure of your remittance to be honoured on first presentation) and that at any time prior to unconditional acceptance by the Company of such late payment in respect of such Offer Shares, the Company may (without prejudice to its other rights) treat the agreement to allot such Offer Shares as void and may allot such Offer Shares to some other person, in which case you will not be entitled to any refund or payment in respect of such Offer Shares (other than return of such late payment at your risk and without interest);
- (f) agree that all cheques and banker's drafts may be presented for payment on the due dates and any definitive document of title and any monies returnable to you may be retained pending clearance of your remittance and the verification of identity required by the ML Regulations and that such monies will not bear interest;
- (g) undertake to provide satisfactory evidence of identity within such reasonable time (in each case to be determined in the absolute discretion of the Company and the Receiving Agent) to ensure compliance with the ML Regulations;
- (h) agree that, in respect of those Offer Shares for which your application has been received and processed and not rejected, acceptance of your application shall be constituted by the Company instructing Downing or the Registrar to enter your name on the share register;
- (i) agree that all documents in connection with the Offers and any returned monies will be sent at your risk and may be sent to you at your address as set out in the Application Form;

- (j) agree that, having had the opportunity to read the Prospectus, you shall be deemed to have had notice of all information and representations including the risk factors contained therein;
- (k) confirm that (save for advice received from your financial adviser) in making such application you are not relying on any information and representation other than those contained in the Prospectus and you accordingly agree that no person responsible solely or jointly for the Prospectus or any part thereof or involved in the preparation thereof will have any liability for any such other information or representation;
- (I) agree that all applications, acceptances of applications and contracts resulting therefrom under the Offers shall be governed by and construed in accordance with English Law and that you submit to the jurisdiction of the English Courts and agree that nothing shall limit the right of the Company to bring any action, suit or proceedings arising out of or in connection with any such applications, acceptances of applications and contracts in any other manner permitted by law or in any court of competent jurisdiction;
- (m)irrevocably authorise the Company, the Registrar or Downing or any other person authorised by any of them, as your agent, to do all things necessary to effect registration of any Offer Shares subscribed by or issued to you into your name and authorise any representatives of the Company, the Registrar or Downing to execute any documents required therefore and to enter your name on the register of members of the Company;
- (n) agree to provide the Company with any information which it may request in connection with your application or to comply with the VCT Regulations or other relevant legislation (as the same may be amended from time to time) including without limitation satisfactory evidence of identity to ensure compliance with the ML Regulations;
- (o) warrant that, in connection with your application, you have observed the laws of all requisite territories, obtained any requisite governmental or other consents, complied with all requisite formalities and paid any issue, transfer or other taxes due in connection with your application in any territory and that you have not taken any action which will or may result in the Company, Downing or the Sponsor acting in breach of the regulatory or legal requirements of any territory in connection with the Offers or your application;
- (p) confirm that you have read and complied with paragraph 6 below;
- (q) confirm that you have reviewed the restrictions contained in paragraph 7 below;

- (t) agree that Downing and the Sponsor are acting for the Company in connection with the Offers and for no-one else and that they will not treat you as their customer by virtue of such application being accepted or owe you any duties or responsibilities concerning the price of Offer Shares or concerning the suitability of Offer Shares for you or be responsible to you for the protections afforded to their customers;
- (u) warrant that if you sign the Application Form on behalf of somebody else or yourself and another or others jointly or a corporation you have the requisite power to make such investments as well as the authority to do so and such person will also be bound accordingly and will be deemed also to have given the confirmations, warranties and undertakings contained in these terms and conditions of application and undertake (save in the case of signature by an authorised financial adviser on behalf of the Investor) to enclose a power of attorney or a copy thereof duly certified by a solicitor with the Application Form;
- (v) warrant that you are not subscribing for the Offer Shares using a loan which would not have been given to you or any associate, or not given to you on such favourable terms, if you had not been proposing to subscribe for the Offer Shares;
- (w) warrant that the Offer Shares are being acquired by you for *bona fide* investment purposes and not as part of a scheme or arrangement the main purpose of which, or one of the main purposes of which, is the avoidance of tax. Obtaining tax reliefs given under the applicable VCT legislation is not of itself tax avoidance;
- (x) warrant that you are not a "US person" as defined in the United States Securities Act of 1933 (as amended) nor a resident of Canada and that you are not applying for any Offer Shares on behalf of or with a view to their offer, sale or delivery, directly or indirectly, to or for the benefit of any US person or resident of Canada; and
- (y) warrant that the information contained in the Application Form is accurate.
- 6. No person receiving a copy of the Prospectus, or an Application Form, in any territory other than the United Kingdom may treat the same as constituting an invitation or offer to him or her, nor should he or she in any event use such Application Form unless, in the relevant territory, such an invitation or offer could lawfully be made to him or her or such Application Form could lawfully be used without contravention of any registration or other legal requirements. It is the responsibility of any person outside the United Kingdom wishing to make an application hereunder to satisfy himself or herself as to the full observance of the laws of any relevant territory in connection therewith, including obtaining any requisite governmental or other consents, observing any of the formalities requiring to be observed in such territory and paying any issue, transfer or other taxes required to be paid in such territory.

- 7. The Offer Shares have not been and will not be registered under the United States Securities Act 1933, as amended, or under the securities laws of any state or other political subdivision of the United States, and may not be offered or sold in the United States of America, its territories or possessions or other areas subject to its jurisdiction (the "USA"). In addition, the Company has not been and will not be registered under the United States Investment Company Act of 1940, as amended. Downing will not be registered under the United States Investment Adviser Act of 1940 (as amended). No application will be accepted if it bears an address in the USA.
- 8. This application is addressed to the Company, the Receiving Agent and the Sponsor. The rights and remedies of the Company and the Sponsor under these Terms and Conditions of Application are in addition to any rights and remedies which would otherwise be available to either of them, and the exercise or partial exercise of one will not prevent the exercise of others.
- 9. The dates and times referred to in these Terms and Conditions of Application may be altered by the Company with the agreement of the Sponsor.
- 10. The Company has taken advantage of the provisions of the 2006 Act to allow annual reports and other statutory shareholder communications to be made available in electronic form on its website as the default means of publication. This will have a positive environmental impact and save the Company some costs compared to providing all communications in hard copy form by post. By default, applicants who provide an email address on the Application Form and do not complete select any alternative notification methods, will receive notification of shareholder communications by email. Investors can elect to receive notifications by post and to receive all shareholder communications in paper form by ticking the appropriate box on the Application Form. Should you subsequently wish to change your election, you can do so at any time by contacting the Registrar, Capita Asset Services, 34 Beckenham Road, Beckenham, Kent BR3 4TU. Notwithstanding any election, the Company may in its sole discretion send any notification or information to Shareholders in paper form.
- 11. Intermediaries who have not provided personal recommendations or advice to UK retail clients in respect of the Offer Shares and who, acting on behalf of their clients, return valid Application Forms bearing their stamp and FCA number may be entitled to commission on the amount payable in respect of the Offer Shares allocated for each such Application Form at the rates specified in the paragraph headed "Commission" in Part XI of this document. Intermediaries may agree to waive part or all of their initial commission in respect of an application for Offer Shares. If this is the case, then the offer charges will be adjusted, in accordance with the Pricing Formula. Intermediaries should keep a record of Application Forms submitted bearing their stamp to substantiate any claim for their commission.
- 12. The section headed "Notes on Application Form" forms part of these Terms and Conditions of Application.
- 13. It is a condition of the Offers to ensure compliance with the ML Regulations. Downing is therefore entitled to require, at its absolute discretion, verification of identity from any Applicant including, without limitation, any person who either (i) tenders payment by way of a cheque or banker's draft drawn on an account in the name of a person or persons other than the Applicant or (ii) appears to Downing to be acting on behalf of some other person. Pending the provision of evidence satisfactory to Downing as to the identity of the Applicant and/or any person on whose behalf the Applicant appears to be acting, Downing may, in its absolute discretion, retain an Application Form lodged by an Applicant and/or the cheque or other remittance relating thereto and/or the Registrar may not enter the Applicant on the register of members or issue any share certificates in respect of such application. If verification of identity is required, this may result in delay in dealing with an application and in rejection of the application. The Company reserves the right, in its absolute discretion, for it or Downing to reject any application in respect of which Downing considers that, having requested verification of identity, it has not received evidence of such identity satisfactory to it by such time as was specified in the request for verification of identity or in any event within a reasonable period. In the event of an application being rejected in any such circumstances, the Company reserves the right in its absolute discretion, but shall have no obligation, to terminate any contract of allotment relating to or constituted by such Application Form (in which event the money payable or paid in respect of the application will be returned (without interest) to the account of the drawee bank from which such sums were originally debited) and/or to endeayour to procure other subscribers for the Offer Shares in question (but in each case without prejudice to any rights the Company may have to take proceedings to recover in respect of loss or damage suffered or incurred by it as a result of the failure to produce satisfactory evidence as aforesaid). The submission of an Application Form will constitute an undertaking by the Applicant to provide promptly to Downing such information as may be specified by it as being required for the purpose of the ML Regulations.

- 14. The right is also reserved to treat as valid and binding any application not complying fully with these Terms and Conditions of Application or not in all respects complying with the Notes on Application Form. In particular, but without limitation, the Company may accept applications made otherwise than by completion of an Application Form where the Applicant has agreed in some other manner acceptable to the Company to apply in accordance with these Terms and Conditions of Application.
- 15. The Company and/or Downing may use the information you give for administration, research and/or statistical purposes. Your details may be used by the Company and/or Downing (but will not be sold to third parties) to send you information on other potential investment opportunities (maximum six communications per annum). If you would prefer not to receive such information, please write to Downing.
- 16. The minimum subscription is £5,000 subject to the Board's discretion.
- 17. The application of the subscription proceeds is subject to the absolute discretion of the Directors.

## Part XI - Pricing of the Offers, Adviser Charges and Commission

## **Pricing of the Offers**

The number of Generalist or Healthcare Shares to be issued to each Applicant will be calculated based on the following Pricing Formula (rounded down to the nearest whole Generalist/Healthcare Share):

Illustrative examples (based on a subscription under the Offers of £10,000 and a NAV per Generalist/Healthcare Share of £1)

- (i) Promoter's Fee (Execution-only Transaction: 4% less 2% Intermediary commission waived) of 2% = £200 Number of Generalist/Healthcare Shares =  $(10,000 200 0) \div 1 = 9,800$  Offer Price = 102.0p
- (ii) Promoter's Fee (advised) of 2% = £200 Example Adviser Charge = £225 Number of Generalist/Healthcare Shares = (10,000 – 200 – 225) ÷ 1 = **9,575** Offer Price = 104.4p
- (iii) Promoter's Fee (advised) of 2% = £200

  Example Adviser Charge = £400

  Number of Generalist/Healthcare Shares = (10,000 200 400) ÷ 1 = **9,400**Offer Price = 106.4p
- (iv) Promoter's Fee (advised or direct investment and application received by 20 January 2017\*) of 1.0% = £100Example Adviser Charge = nil (fee being paid directly by client to Intermediary or direct application) Number of K Shares =  $(10,000 - 100 - 0) \div 1 = 9,900$  Offer Price = 101.0p

It should be noted that the example Adviser Charges set out above have been provided to illustrate the pricing of the Offers and should not be considered as a recommendation as to the appropriate levels of Adviser Charges.

Income tax relief should be available on the total amount subscribed, subject to VCT regulations and personal circumstances, which in each of the above examples would be £3,000 (£10,000 at 30%).

<sup>&</sup>lt;sup>1</sup>less any reduction for early applications and/or commission waived by Intermediaries (where applicable)

<sup>&</sup>lt;sup>2</sup> adjusted for any dividends declared that are ex-dividend but not yet paid, as appropriate.

<sup>\*</sup>Applications received and accepted by 20 January 2017 will benefit from a reduction in the Promoter's Fee of 1.0% of the amount subscribed (0.5% reduction if received and accepted between 21 January 2017 and 3 March 2017).

## **Adviser Charges**

Commission is not permitted to be paid to Intermediaries who provide a personal recommendation to UK retail clients on investments in VCTs. Instead of commission being paid by the Company, a fee will usually be agreed between the Intermediary and Investor for the advice and related services ("Adviser Charge"). This fee can either be paid directly by the Investor to the Intermediary or, if it is an initial one-off fee, the payment of such fee may be facilitated from the Investor's funds received by the Company. Ongoing fees to Intermediaries will not be facilitated by the Company. If the payment of the Adviser Charge is to be facilitated by the Company, then the Investor is required to specify the amount of the charge on the Application Form (see Box 4). The Investor will be issued fewer Generalist and/or Healthcare Shares (to the equivalent value of the Adviser Charge) through the Pricing Formula set out above. The Adviser Charge is inclusive of VAT, if applicable.

## Commission

Commission may be payable where there is an Execution-only Transaction and no advice has been provided by the Intermediary to the Investor or where the Intermediary has demonstrated to Downing that the Investor is a professional client of the Intermediary. Commission is payable by Downing out of its Promoter's Fee. Those Intermediaries who are permitted to receive commission will usually receive an initial commission of 2% of the amount invested by their clients under the Offers. Additionally, provided that the Intermediary continues to act for the Investor and the Investor continues to be the beneficial owner of the Generalist Shares and/or Healthcare Shares, and subject to applicable laws, regulations and FCA rules, the Intermediary will usually be paid an annual trail commission of 0.25% of the Net Asset Value of their clients' holdings for five years from the date of allotment. Trail commission may be waived, at Downing's discretion, in favour of an additional upfront commission of 0.75%. Trail commission will be paid by Downing annually in August (commencing August 2018 based on the audited Net Asset Value at the preceding 31 March). Both the initial and annual trail commission will be payable by Downing out of its fees.
